On Animals Feb 20 2022 'Every essay in this book is magnificent... Mesmerizing.' New York Times 'How we interact with animals has preoccupied philosophers, poets, and naturalists for ages,' writes Susan Orlean. Since the age of six, when Orlean wrote and illustrated a book called Herbert the Near-Sighted Pigeon, she has been drawn to stories about how we live with animals, and how they abide by us. Now, in On Animals, she examines animal-human relationships through the compelling tales she has written over the course of her celebrated career. These stories consider a range of creatures - the household pets we dote on, the animals we raise to end up as meat on our plates, the creatures who could eat us for dinner, the various tamed and untamed animals we share our planet with who are central to human life. In her own backyard, Orlean discovers the delights of keeping chickens. In a different backyard, in New Jersey, she meets a woman who owns twenty-three pet tigers - something none of her neighbours knew about until one of the tigers escaped. In Iceland, the world's most famous whale resists the efforts to set him free; in Morocco, the world's hardest-working donkeys find respite at a special clinic. We meet a show dog and a lost dog and a pigeon who knows exactly how to get home. Equal parts delightful and profound, enriched by Orlean's stylish prose and personal research, these stories celebrate the meaningful cross-species connections that grace our collective lives.

Only the Animals **Sun 12 2021** Perhaps only the animals can tell us what it is to be human. The souls of animals caught up in human conflicts over the last century tell their astonishing stories of life and death: a trench on the Western Front a cat recalls her owner Colette's theatrical antics in Paris. In Nazi Germany a man seeks enlightenment. A Russian tortoise once owned by the Tolstoys drifts in space during the Cold War. At the siege of Sarajevo a bear starving to death tells a fairytale. And a dolphin sent to Iraq by the US Navy writes a letter to Sylvia Plath. Exquisitely written, playful and poignant, Only the Animals is a remarkable literary achievement by this bright young writer. An animal's-eye view of humans at our brutal, violent worst. In the most creative, imaginative best, it asks us to find our way back to empathy not only for animals, but for others, and to believe again in the redemptive power of reading and writing fiction.

Animals and Psychedelics **Sun 19 2019** An Italian ethnobotanist explores the remarkable propensity of wild animals to seek out and use psychoactive substances. • Throws out behaviorist theories that claim animals have no consciousness. • Offers a completely new understanding of the role psychedelics play in the development of consciousness in all species. • Reveals drug use to be a natural instinct. From caffeine-dependent goats to nectar addicted ants, the animal kingdom offers amazing examples of wild animals and insects seeking out and consuming the psychoactive substances in their environments. Author Giorgio Samorini explores this little-known phenomenon and suggests that, far from being confined to humans, the desire to experience altered states of consciousness is a natural drive shared by all living beings and that animals engage in these behaviors deliberately. Rejecting the Western cultural assumption that using drugs is a negative action or the result of an illness, Samorini opens our eyes to the possibility that beings who use psychedelics--whether humans or animals--contribute to the evolution of their species by creating new patterns of behavior that eventually will be adopted by other members of that species. The author's funny accounts of mushroom-loving reindeer, intoxicated birds, and drunken elephants ensure that readers will view the animal world in quite the same way again.

L.M.B.C. Memoirs on Typical British Marine Plants and Animals **Oct 04 2020**

Funny Farm **Jan 19 2022** An inspiring and moving memoir of the author's turbulent life with 600 rescued animals. Laurie Zaleski never aspired to run an animal rescue; that was her mother Annie's dream. But in her girlhood, Laurie was determined to make the dream come true. Thirty years later as a successful businesswoman, she did it, buying a 15-acre farm deep in the Pinelands of South Jersey. She was planning to relocate Annie and her caravan of ragtag rescues—horses and goats, dogs and cats, chickens and pigs. But Annie died, just two weeks before moving day. In her heartbreak, Laurie resolved to make her mother's dream her own. In 2001, she established the Funny Farm Animal Rescue outside Mays Landing, New Jersey. Today she carries on Annie's mission to save abused and neglected animals. Funny Farm is Laurie's story: of promises kept, dreams fulfilled, and animals lost and found. It's the story of Annie McNulty, who fled a nightmarish marriage with few skills, no money and no resources, dragging three kids behind her, and accumulating hundreds of cast-off animals on the way. And lastly, it's the story of the brave, incredibly adorable animals that were rescued. Although there are some sad parts (as life always is), there are lots of laughs.

Pigs Can't Swim **Nov 24 2019** An outrageous, hilarious, and touching memoir by the youngest of nine children in a hardscrabble, beyond-eccentric Maine family. With everything happening on Helen Peppe's backwoods Maine farm, life was wild -- and not just for the animals. Sibling rivalry, rock-bottom poverty, male chauvinism, sex in the hayloft: everything seemed--and was -- out of control. In telling her wayward family tale, Peppe manages deadpan humor, an unerring eye for the absurd, and poignant compassion for utterly overwhelmed parents. While her feisty resilience and candor will inevitably remind readers of Jane Wollstonecraft or Mary Karr, Peppe's wry insight and moments of tenderness with family and animals are entirely her own. As Richard Hoffman, the author of Half the House: A Memoir puts it: "Pigs Can't Swim -- is an unrelentingly joyous troublemaker of a book."

Representing the Modern Animal in Culture **Mar 29 2020** Examining a wide range of works, from Gulliver's

Travels to The Hunger Games, Representing the Modern Animal in Culture employs key theoretical apparatuses of Animal Studies to literary texts. Contributors address the multifarious modes of animal representation and the range of human-animal interactions that have emerged in the past 300 years.

**Aug 26 2022** National Book Award finalist Sy Montgomery reflects on the personalities and quirks of 13 animals--her friends--who have profoundly affected her in this stunning and life-affirming memoir featuring illustrations by Rebecca Green.

**May 31 2020** "The lessons that these animals taught me have been subtle, startling, and inspirational, playing a small but vital part in helping to shape the person you see with the stethoscope on his neck." —Dr. Nick Trout  
New York Times bestselling author Nick Trout has captivated readers by taking them behind the scenes into the heartwarming—and sometimes heartrending—world of veterinary medicine. In *Ever By My Side*, Nick turns the lens inward to offer a funny, moving, and intimate memoir about how his relationships with those beloved animals to tell his life story, Nick shares the profound lessons he's learned about friendship, loyalty, and resilience. The result is a moving story that speaks not just to animal lovers but to any reader who appreciates the bonds we have with our loved ones, be they animal or human, and the lengths to which we go to nurture those bonds. Nick waxes nostalgic about his boyhood in a working-class British suburb, where a large German shepherd named Patch was the perfect companion to a scrawny boy in a neighborhood full of bullies. He writes about his relationship with his father, the man who nurtured Nick's dream of becoming a vet, even though he couldn't have imagined the career would lead his only 3,000 miles away. He describes wooing his future wife and stepdaughter and (perhaps most difficult) their ornery cat. And he offers a poignant chronicle of his daughter's devastating diagnosis of cystic fibrosis and how a little yellow Labrador retriever played an important role in bringing joy to their family when they needed it most. Alongside Nick's warm reflections, the pets in these pages come alive as irresistible characters in their own right and showcase the power of animals to offer a lifetime of consolation, guidance, and affection. Tender, wry, and ruminative, *Ever By My Side* is a tribute to the power and beauty of ordinary animals and a celebration of how pets make it all the sweeter and richer.

**Sep 27 2022** "American Animals is a coming-of-age crime memoir centered around three childhood friends: Warren, Spencer, and Eric"--

**Nov 17 2021** *Committed* is a bold, offbeat, globe-trotting memoir that shows how the most punching bag in high school became an internationally renowned crusader for the most downtrodden individuals of all -- animals. This irresistibly entertaining book recounts the random incidents and soul-searching that inspired a reluctant party boy to devote his life to a cause, without ever abandoning his mischief and fun. "Everyone has a tense moment in their career that makes them wonder, how the hell do you get into this mess?" writes Mathews. "For me, it was when I was dressed as a carrot to promote vegetables outside an elementary school in Des Moines, and a pack of obese pig farmers showed up and peeled off slices of bologna for kids to throw at me." As the irreverent force behind the colorful crusades carried out by the Ethical Treatment of Animals (PETA), one of the most effective and enduring pressure groups in the world, Mathews has strutted naked before a fur convention in Tokyo, halted GM's use of animals in cars by storming the carmaker's float in the Rose Parade dressed as a rabbit, and crashed a fashion show in London dressed as a priest. With self-deprecating wit and candor, Mathews reveals all the edgy details of his unorthodox coming-of-age and equally outrageous career. With backdrops such as the rock scene in Hollywood and London, the inner sanctums of New York high fashion, jails in Hong Kong and Boston, and a psychiatric ward in Paris, *Committed* spotlights the adventures life can offer when you don't abandon your youthful ideals and imagination.

**Mar 21 2022** "I had spent most of my childhood thinking I was a dog, and I suspect I had aged in dog years. By the time I was ten I had discovered the pain of unbearable loss. I learned about joy and jealousy. Most important of all, I knew how to love and how to let myself be loved. All these things I learned through animals. Horses and dogs were my family and my friends. This is their story as much as it is mine." Clare Balding grew up in an unusual household. Her father a champion horse trainer, they share their lives with more than one hundred thoroughbred racehorses, mares, foals, and ponies, as well as

present pack of dogs, on a sprawling estate in the Hampshire Downs. As a child, Clare happily rode the legendary racehorse Mill Reef and received her first pony, Valkyrie, as a gift from Her Majesty the Queen of England. But Clare ranked low in the family pecking order—as a girl, she was decidedly below her young brother, and both of them were certainly below the horses. Left to her own devices, she had to learn the toughest lessons through the animals, and through her adventures in the stables and the surrounding English countryside. From her struggles at boarding school to her triumphs as an amateur jockey and rider, Clare weaves her own coming-of-age story through portraits of the beloved horses and dogs, from protective Candy to the unruly Frank, who were her earliest friends. The running family joke was that animals "ain't people." Clare has to prove them wrong, to make her voice heard—but first she had to make sure she had something to say. *My Animals and Other Family* is a witty, brave, and moving account of stumbling—often literally—into one's true self.

**In the Eye of the Wild** | 01 2020 After enduring a vicious bear attack in the Russian Far East's Kamchatka Peninsula, a French anthropologist undergoes a physical and spiritual transformation that forces her to confront the tenuous distinction between animal and human. *In the Eye of the Wild* begins with an account of the French anthropologist Nastassja Martin's near fatal run-in with a Kamchatka bear in the mountains of Siberia. Martin's professional interest is animism; she addresses philosophical questions about the relationship of humankind to nature, and in her work she seeks to partake as fully as she can in the lives of the indigenous peoples she studies. Her violent encounter with the bear, however, brings her face-to-face with something entirely beyond her ken—the untamed, the nonhuman, the animal, the wild. In the course of that encounter something in the balance of her world shifts. A change takes place that she must somehow reckon with. Severely mutilated, dazed with pain, Martin undergoes multiple operations in a provincial Russian hospital while also being grilled by the secret police. Back in France, she finds herself back on the operating table, the source of new trauma. She realizes that the only thing for her to do is to return to Kamchatka. She must discover what it means to have become, as the Even people call it, *medka*, a person who is half human and half bear. *In the Eye of the Wild* is a fascinating, mind-altering book about terror, pain, endurance, and self-transformation, comparable in its intensity of perception and originality of style to J. A. Baker's classic *Peregrine*. Here Nastassja Martin takes us to the farthest limits of human being.

**Hollywood Animal** | May 23 2022 Joe Eszterhas had everything Hollywood could offer. A combination of insider and rebel, he saw and participated in the fights, the deals, the backstabbing, and all the sex and scandal. But here, in his candid and heartwrenching memoir, we see the rest of the story: the inspiring account of a child of Hungarian immigrants who, against all odds, grows up to live the American Dream. *Hollywood Animal* reveals the trajectory of Eszterhas's life in gripping detail, from his childhood in a refugee camp to his battle with a devastating cancer. It shows how a struggling journalist became the most successful screenwriter of all time, and how a man who had access to the most beautiful women in Hollywood ultimately chose to spend the rest of his life with the love of his life in a small town in Ohio. Above all, it is the story of a father and a son, and the turbulent relationship that was an unending cycle of heartbreak. *Hollywood Animal* is an enthralling, provocative memoir: a moving celebration of the human spirit.

**Fox and I** | Aug 14 2021 INSTANT NEW YORK TIMES BESTSELLER "If there's one book you pick up this summer, make it this one." - Washington Post "A wise and intimate book about a solitary woman, a biologist by training, who befriends a fox." - Yann Martel, author of *Life of Pi* Catherine Raven has lived alone since the age of 15. After finishing her PhD in biology, she built herself a tiny cottage on an isolated plot of land in Montana, in a place as far away from other people as possible. She viewed the house as a way station, a temporary rest stop where she could gather her nerves and fill out applications for what she hoped would

real job that would help her fit into society. Then one day she realises she has company: a mangy-looking fox who starts showing up at her house every afternoon at 4.15pm. She has never had a visitor before. How can she even talk to a fox? She brings out her camping chair, sits as close to him as she dares, and begins reading to him from *The Little Prince*. Her scientific training has taught her not to anthropomorphise animals, yet she slowly grows to know him, his personality reveals itself and the two form a powerful bond - shaken only when a natural disaster threatens to destroy their woodland refuge. *Fox and I* is a story of survival and transformation, a captivating tale of a friendship between two species in a shared habitat, battling against the uncontrollable forces of nature on one side and humanity on the other - immersive, original and utterly unforgettable.

**We the Animals** Dec 18 2021 Three brothers tear their way through childhood - smashing tomatoes all over each other, building kites from rubbish, hiding when their parents do battle, tiptoeing around the house when their mother sleeps off her graveyard shift. Paps and Ma are from Brooklyn - he's Puerto Rican, she's Jewish. Barely out of childhood themselves, their love is a serious, dangerous thing. Life in this family is fierce and absorbing, full of chaos and heartbreak and the euphoria of belonging completely to one another. From the intense familial unity felt by a child to the profound alienation he endures as he begins to forge his own path in the world, this beautiful novel reinvents the coming-of-age story in a way that is sly and incredibly powerful.

**My Family and Other Animals** Mar 09 2021 1935: The Durrells pack their bags and flee the gloom of England like a flock of migrating swallows. Their destination is the Greek island of Corfu, where the eccentric family takes up residence in a series of villas. Budding naturalist Gerald, the youngest of the brood, finds himself in paradise. For the island affords a multitude of fauna to be observed, studied - and (with varying degrees of success) domesticated. Soon the villas feature water-snakes in the bath, scorpions lurking in the boxes, and a pair of irrepressible magpies who leave a trail of chaos and devastation in their wake...

**The Education of Will** Jul 21 2019 "An animal behaviorist recounts the story of how in order to help a troubled dog she was compelled to revisit painful memories about her own past in order to gain understanding into the impact of trauma on the brain, "--NoveList

**Bad Animals** Sep 22 2019 Joel Yanofsky tried for years to start this memoir. "It's not just going to be about autism," he told his wife, Cynthia. "It's going to be about parenthood and marriage, about hope and despair, and storytelling, too." "Marriage?" Cynthia said. "What about marriage?" A veteran book reviewer, Yanofsky has spent a lifetime immersed in literature (not to mention old movies and old jokes), which he calls "storytelling." This account of a year in the life of a family describes a father's struggle to enter his son's world, the son's world of autism, using the materials he knows best: self-help books, feel-good memoirs, literary classics from Tolstoy to Dr. Seuss, old movies, and, yes, shtick. Funny, wrenching, and unfailingly candid, *Bad Animals* is both a poignant exploration of a baffling condition and a quirky love story told by a gifted writer.

**Animal Quintet** Apr 29 2020 Colin Dayan meditates on the connection between her personal and family history and her relationship with animals in this lyrical memoir about her upbringing in the South. Unraveling memories alongside family documents and photographs, *Animal Quintet* takes a raw look at racial tensions and relations in a region struggling to change while providing a disquieting picture of a childhood accessed only through accounts of the non-human, ranging from famed Southern war horses led by Civil War generals to and doomed Spanish fighting bulls to the lowly possum hunted by generations of Southerners. Placing the reader in the mind's eye of a writer still grappling with her own mixed identity and unsettled past, the book is uniquely capable of transporting one's imagination across time and place, mirroring the natural behavior of the animals with its feeling of dislocation and non-linear movement. Regional folk songs about old-timey mares and possums hiding in trees intermingle with stories and confidences shared by the household's African American nanny, enclosing the reader in a chorus composed of otherwise lost voices. Presented in a way that it simultaneously longs for the past and attempts to keep it at arm's length, *Animal Quintet* has a haunting, nostalgic quality rare to memoirs focused on ancestral and personal identity.

**Name All the Animals** Oct 28 2022 Recounts the author's teenage experience of losing her beloved older brother in a car accident, a loss after which she managed her grief by engaging in self-destructive behavior until her forbidden love for another girl helped her define herself beyond her brother's death. But when one man commits a shocking act of violence in front of her, she flees New York City in search of Alice, the only woman alive who can help her make sense of her past. In the sweltering hills above Los Angeles, Joan unravels the horrific event she witnessed as a child—that has haunted her every waking moment—while forging the path to finally strike back. *Animal* is a depiction of female rage at its rawest, and a visceral exploration of the consequences of violence from a male-dominated society.

**Dewey** Jul 25 2022 How many lives can one abandoned kitten touch? This is the heart-warming and unforgettable story of a truly idiosyncratic cat with a strong sense of loyalty and love, and a taste for adventure. When he was just a few weeks old, Dewey Readmore Books was shoved through the book returns slot at a local library in a sleepy town. Starving, terrified and bruised after being battered by falling books, Dewey curled up into the arms of the library director Vicky. Vicky was a single mother who had escaped a violent husband and was struggling to bring up her little girl Jodi alone. Vicky fell in love with the little bundle in her arms and campaigned to allow Dewey to stay and become the library cat. She didn't know what she was letting herself in for. Dewey's arrival transformed Vicky and Jodi's lives, as well as the staff at the library and eventually the fortunes of an entire town. Dewey was an instant hit with the library regulars and had an amazing instinct to cuddle up close to visitors that were going through a tough time. Vicky tells the incredible story of one severely disabled, wheelchair bound girl that Dewey took a shine to and how he would climb on her jacket as she giggled hysterically and her eyes, usually almost catatonic, burst into life. He supervised children's reading groups and ensured no child felt left out by snuggling into the laps of any outsiders. A ball of mischievous energy and relished in turning the hitherto quiet and predictable routines of the library upside down. Dewey became the town's number one attraction and he began regularly appearing in the national and international media. Fans from all over the world visited the small town to pay homage to the world's most beloved cat.

**Can Animals Be Moral?** Feb 26 2020 Philosophical tradition has apparently convincing arguments on its behalf. **They Cage the Animals at Night** May 11 2021 The heartbreaking, iconic true story of an abandoned little boy's horrific journey through the American foster care system. On a misty evening in Brooklyn, Jennifer Michael Burch's mother, too sick to care for him, left her eight-year-old son at an orphanage with the promise, “I'll be right back.” She wasn't. Shuttled through a bleak series of foster homes, orphanages, and institutions, Jennings never remained in any of them long enough to make a friend. Instead, he clung to a tattered animal named Doggie, his sole source of comfort in a frightening world. Here, in his own words, Jennifer Michael Burch reveals the abuse and neglect he experienced during his lost childhood. But while his experiences are both shocking and devastating, his story is ultimately one of hope—the triumphant tale of a forgotten child who somehow found the courage to reach out for love, and found it waiting for him.

Drinking from the Trough Sep 03 2020 Mary Carlson didn't start out to become a veterinarian, let alone a pet owner and caretaker of cats (many), dogs (two, both huskies), and horses (some with manners, some without) in Colorado. She was a suburban Chicago girl; all she knew of the American West came from the stories of her uncle, who had settled in northern Colorado, told her during his annual visits. But thanks to him, she ended up moving to Fort Collins, Colorado for college—and after falling in love with a man she'd become friends with in her final year of college, when he was a student at the CSU School of Veterinary Medicine, she remained there. Watching the work Earl did as a veterinarian inspired Mary to eventually leave her tenured teaching position and enter vet school, after which she opened her own, feline-exclusive clinic. Along the way, there were numerous pets, grueling years of vet school, a shattered hip, an enduring love, illness, and death. It was a rediscovery that life, especially a life full of delightful animals, is worth living.

Memoirs of a Polar Bear Nov 05 2020 Someone tickled me behind my ears, under my arms. I curled up, and I became a full moon, and rolled on the floor. I may also have emitted a few hoarse shrieks. Then I lifted my rump to the sky and tucked my head beneath my belly: Now I was a sickle moon, still too young to imagine danger. Innocent, I opened my anus to the cosmos and felt it in my bowels. A bear, born and raised in the wild, is devastated by the loss of his keeper; another finds herself performing in the circus; a third sits down and pens a memoir which becomes an international sensation, and causes her to flee her home. Through the stories of these three bears, Tawada reflects on our own humanity, the ways in which we belong to our world, and the ways in which we are formed. Delicate and surreal, *Memoirs of a Polar Bear* takes the reader to strange foreign bodies and foreign climes, and immerses us in what the *New Yorker* has called 'Yoko Tawada's magnificent strangeness'.

**Putting the Horse Before Descartes** Dec 06 2020 Putting the Horse before Descartes showcases this pass animal advocate at his best. In witty, often disarming detail, Rollin describes how he became an outsp critic of how animals were treated in veterinary and medical schools and research laboratories. He rec teaching veterinary students about ethical issues and engaging in face-offs with ranchers and cowboy branding methods and rodeo roping competitions. **Solitary Animals** Jan 27 2020 Celebrate the beauty and strength of solitude with this poetic observatio

animal kingdom and those who move through it on their very own. That silvery cloud swimming in the water is actually a school of fish. That splash and crash is a pod of whales, sounding. Behold, a fever of stingrays gliding by. But what do you call a group of octopuses? A tangle of octopuses? A chandelier of octopuses? Multipus of octopuses? No, octopuses prefer to be alone. The octopus is a solitary animal. This lyrical, nonfiction text honors animals who live in solitude, in contrast to others who live in groups. Against a backdrop of the specific names of various animal tribes (a parade of elephants, a tower of giraffes, a herd of zebras), Stein shines a spotlight on those animals who go through life on their own. With nature at his side, Stein invites readers to draw strength and comfort from the behaviors of fellow animals. Perfect for children who are introverted or tend to be alone, and their parents...as well as all children, who will be encouraged to respect the "natural" choices of their peers.
