Getting Science Aug 18 2021 Science is rightly a fundamental part of primary school education, but that doesn't make it easy to teach - especially for teachers without a science background. This straight talking book from an experienced science writer and communicator looks at how to make the most of it and give primary school children a good grounding in the topic. Getting Science sets out to engage the sense of wonder. The science in this book is not for the children, but for the adults who have to explain it. Starting with a whirlwind tour of the great milestones of modern science, Getting Science goes on to take each of the main curriculum topics and give it a new twist. It provides the information needed to understand the key topics better and be able to put them across with enthusiasm and energy. This book will help teachers to get children excited by science, to understand science rather than just answer questions. Getting Science makes science fun, approachable and comprehensible to those who just don't get it.

The New Nation Middle/High School Teaching Guide, a History of US May 03 2020 The teaching guides developed for Middle/High schools were created to support 8th grade American history content standards and learning frameworks. They present concise menus of ideas for teachers working with developing critical thinkers. Where the Elementary level teaching guides focus on comprehension, the Middle/High School level teaching guides emphasize critical thinking and drawing connections. The core of each chapter lesson is a Connect-Understand-Check Understanding format, with activities for prereading, comprehension and extension. In addition, each lesson presents activity suggestions for linking disciplines, further research, nonfiction reading, geography skills and differentiated instruction. Groups of chapters are contextualized by Part activities, which include setting context for reading, written assessment prompts, debate suggestions, ethics discussion prompts, projects, and activities. Also, each Part contains a cooperative learning activity developed for A History of US by Johns Hopkins University's Center for Social Organization of Schools.

Reproducible assessments, worksheets graphic organizers and rubrics are found at back.
