Lots of people want to try woodwork, but they get intimidated by dangerous power tools and difficult techniques. Good news: there are lots of ways to work with wood and anyone can get a few tools and start making projects. *Everyday Woodworking* starts at the very beginning—with wood. As Rex likes to say: "Trust me, it's not hard." Once you get a few tools and learn some simple techniques, you'll start making things right away. You'll begin with a simple mallet and some wooden wedges and then advance to splitting green logs into usable lumber. Written for craft practitioners, design students, and readers interested in the intersections of gender and labor history—with 200 full-color images, both historical and contemporary—this book provides an accessible and insightful entry into the histories, practices, and lived experiences of women and nonbinary makers in woodworking. In the first half

the author presents a woodworking history primarily in Europe and the United States that highlights the practical and philosophical issues that have marked women's participation in the field. Research focuses on a diverse range of practitioners from Lady Yun to Adina White. This is followed by sixteen in-depth profiles of contemporary woodworkers, all of whom identify fine woodworking as their principal vocation. Through studio visits, interviews, and photographs of space and process, the book uncovers the varied practices and contributions these diverse artisans make to the understanding of wood as a

medium to engage spatial, material, aesthetic, and even existential challenges. Beautifully illustrated profiles include Wendy Maruyama, one of the first women to earn an MFA in woodworking in the US; Sarah Marriage, founder of Baltimore's A Workshop of Our Own, a woodshop and educational space specifically for women and gender non-conforming makers; Yuri Kobayashi, whose sublime work blurs boundaries between the worlds of art and craft, sculpture, and furniture; and Folayemi Wilson, whose work draws equally on African American history and Afrofuturism to explore and illuminate the ways that
