Making Faithful Decisions at the End of Life Oct 23 2019 By exploring the ethics of resisting and accepting death from a Christian perspective, Nancy Duff encourages Christians to talk about death in the context of Christian faith. Making Faithful Decisions at the End of Life helps readers use biblical and theological perspectives regarding death to inform end-of-life decisions, consider where they stand on withdrawing life support and supporting death with dignity laws, and take steps in planning for their own future.

The Paper Solution Jan 18 2022 We are drowning in paper. We keep stacks of it on the kitchen counter, stash it in drawers, and stuff file cabinets full of documents (just one file cabinet can hold 18,000 sheets of paper - yikes). Despite this clear crisis of paper, there hasn't been a book devoted to managing and organizing this single most abundant item in our homes - until now. In *The Paper Solution*, Lisa Woodruff delivers a proven, step-by-step guide to decluttering the paper in our lives and sorting what's left behind into easily accessible, structured, and, most importantly, manageable files. The system Woodruff offers isn't based on unrealistic advice, such as 'touch a piece of paper only once'. Instead, it accounts for paper's unique qualities: its sentimental value, ability to accumulate astonishingly fast, the generational differences in how it's treated, and the fact that it's not going anywhere despite the popularity of minimalism movements such as Kon Mari. Woodruff's approach is doable, effective, and compassionate. Much more than simply cleaning out your files, *The Paper Solution* will help you organize your paperwork with a purpose-removing the heavy burden of a chaotic mess and giving you the space and time to enjoy what you love and discover a sense of peace.

Rich On Paper Poor On Life – 3 Paths to More Meaning & Money Jun 23 2022 We live in a world that works tirelessly to assimilate us to be "normal". This collective pressure has the ability to dampen our spirit and give up the dreams we have in our souls in search of what we are told is success and happiness. We often find ourselves chasing the things we think will make us happy and when we get there, feeling an eery emptiness. The real life stories in this book will inspire you to find the courage and clarity within to take back your life and challenge the very essence of the things you think will make you happy. Stop living the life others want for you and begin the quest for meaning in every area of your life. If you feel you are settling in life and wonder if there is more, then this book is for you.

Cosmochemical Evolution and the Origins of Life Jul 24 2022 This publication, in two volumes, includes most of the scientific papers presented at the first meeting of the International Society for the Study of the Origin of Life (ISSOL), held on June 25-28, 1973 in Barcelona, Spain. The first volume contains the invited articles and the second volume the contributed papers, which also appear in the 1974 and 1975 issues, respectively, of the new journal *Origins of Life*, published by D. Reidel. A relatively large number of meetings on the subject of the origin of life have been held in different places since 1957. In terms of its organization, scope, and number and nationality of participants, the Conference celebrated last year in Barcelona closely followed the three international conferences held earlier in Moscow, U.S.S.R., 1957, Wakulla Springs, U.S.A., 1963, and Pont-a-Mousson, France, 1970. For this reason the first ISSOL meeting was also named the Ath International Conference on the Origin of Life.

Paper Life Aug 13 2021 The story of Ligia Montoya, an elusive artist known as the Angel of Origami. Her letters filled with delicate foldings earned her a distinguished place among the masters who revitalized, by mid-20th century, the ancient art of paperfolding. With instructions on how to fold some of her models. Editorial Reviews: "Paper Life is an important book describing the early history of the modern origami movement. Laura Rozenberg is an origami archivist who really delves into the subject by going to original source documents including models folded by the creators themselves. A must have book for anyone serious about paper folding." -- Wendy Zeichner, OrigamiUSA President/CEO "As a paperfolder, as a historian and as a longtime scholarly publisher, I know that writing for several different kinds/ages of audiences is a tricky thing, but Laura Rozenberg has pulled it off. She has given the origami world a classic!" --Karen Reeds, Princeton Public Library Origami Group. "A book for every person who loves origami, but also for those who like stories. It is an invitation to a different way of learning and teaching paperfolding." --Masao, founder of Origamiteca, Buenos Aires, Argentina. "Ligia Montoya has been the mother of a peculiar way of understanding creative freedom. Its highly engaging narrative thread has different reading levels, apt for novices and advanced paperfolders." --Polo Madueño, historiador del origami, Chubut, Argentina.

Polemical Papers Dec 17 2021 First published in 1997, this valuable volume is a collection of previously published, clear, non-technical essays brought together in this volume on a wide range of polemical topics including war and peace, love and sex, and life and its meanings. Written between 1979 and 1994, the papers lucidly approach human questions which are of issues to both academic philosophers and the wider, popular audience. Jenny Teichman's polemics have been written with wit and gusto and her writing displays a talent for puncturing the pretensions of highly reputable thinkers and landing some well-placed blows. Much amusement can be derived from this book, along with much instruction.
