Architectural Graphic Standards for Residential Construction Nov 20 2021 A guide to building standards of residential architecture.

Log Home Living May 15 2021 *Log Home Living* is the oldest, largest and most widely distributed and read publication reaching log home enthusiasts. For 21 years *Log Home Living* has presented the log home lifestyle through striking editorial, photographic features and informative resources. For more than two decades *Log Home Living* has offered so much more than a magazine through additional resources—shows, seminars, mail-order bookstore, Web site, and membership organization. That's why the most serious log home buyers choose *Log Home Living*.

Log Home Design Jan 23 2022 *Log Home Design* is the preferred, trusted partner with readers in simplifying the process of becoming a log home owner. With its exclusive focus on planning and design, the magazine's friendly tone, practical content and targeted advertising provide the essential tools consumers need – from the crucial preliminary stages through the finishing touches of their dream log home.

Washington Information Directory 2022-2023 Nov 28 2019 The *Washington Information Directory* (WID) is a "directory," with a unique profile - it is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or non-governmental) does related to that topic. It focuses on Washington - in order to be listed, an organization must have an office in the Washington metropolitan area. These descriptions are not boilerplate advertising material from the organizations; rather, they are hand-crafted by a talented freelance research team. In addition, WID pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest, and an extensive list of active congressional caucuses and contact details. WID has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies.

Contractor's Guide to the Building Code Feb 09 2021 Don't let your jobs be held up by failing code inspections. Smooth sign-off by the inspector is the goal, but to make this ideal happen on your job site, you need to understand the requirements of latest editions of the International Building Code and the International Residential Code. Understanding what the codes require can be a real challenge. This new, completely revised Contractor's Guide to the Building Code cuts through the legalese of the code books. It explains the important requirements for residential and light commercial structures in plain, simple English so you can get it right the first time.

Biomass for Renewable Energy, Fuels, and Chemicals Aug 25 2019 Biomass for Renewable Energy, Fuels, and Chemicals serves as a comprehensive introduction to the subject for the student and educator, and is useful for researchers who are interested in the technical details of biomass energy production. The coverage and discussion are multidisciplinary, reflecting the many scientific and engineering disciplines involved. The book will appeal to a broad range of energy professionals and specialists, farmers and foresters who are searching for methods of selecting, growing, and converting energy crops, entrepreneurs who are commercializing biomass energy projects, and those involved in designing solid and liquid waste disposal-energy recovery systems. Presents a graduated treatment from basic principles to the details of specific technologies Includes a critical analysis of many biomass energy research and commercialization activities Proposes several new technical approaches to improve efficiencies, net energy production, and economics Reviews failed projects, as well as successes, and methods for overcoming barriers to commercialization Written by a leader in the field with 40 years of educational, research, and commercialization experience

The Living Elements of Healthy Building Design Jun 23 2019 Based on 15 years of wide ranging study, THE LIVING ELEMENTS OF HEALTHY BUILDING DESIGN is the first in a series of guidebooks that accompany workshops of the same name to educate and clarify the impact of current building practices and materials on the indoor environment and human health in a form accessible to laypersons and professionals alike—from homeowner to non technical designer. To simplify and substantiate this wealth of information, the author organizes the material through the lens of the Living Elements: Earth, Metal, Water, Wood, Air, and Fire—emphasizing the interrelationship between human life, the earth, and the cosmos. This reference and its companion volumes (soon to be published) supports the concept of "Conscious Architecture", an innovative and integrated model of architecture and design that inspires harmonious structures, where natural elements purposefully intermingle with form, color, light, and sound to create holistic and healthy buildings that contain and reflect the wholeness of nature and its expression in the human spirit.
