The Island of Sea Women Aug 06 2020 THE NEW YORK TIMES BESTSELLER "A mesmerizing new historical novel" (O, The Oprah Magazine) from Lisa See, the bestselling author of *The Tea Girl of Hummingbird Lane*, about female friendship and devastating family secrets on a small Korean island. Mi-ja and Young-sook, two girls living on the Korean island of Jeju, are best friends who come from very different backgrounds. When they are old enough, they begin working in the sea with their village's all-female diving collective, led by Young-sook's mother. As the girls take up their positions as baby divers, they know they are beginning a life of excitement and responsibility—but also danger. Despite their love for each other, Mi-ja and Young-sook find it impossible to ignore their differences. *The Island of Sea Women* takes place over many decades, beginning during a period of Japanese colonialism in the 1930s and 1940s, followed by World War II, the Korean War, through the era of cell phones and wet suits for the women divers. Throughout this time, the residents of Jeju find themselves caught between warring empires. Mi-ja is the daughter of a Japanese collaborator. Young-sook was born into a long line of haenyeo and will inherit her mother's position leading the divers in their village. Little do the two friends know that forces outside their control will push their friendship to the breaking point. "This vivid...thoughtful and empathetic" novel (The New York Times Book Review) illuminates a world turned upside down, one where the women are in charge and the men take care of the children. "A wonderful ode to a truly singular group of women" (Publishers Weekly), *The Island of Sea Women* is a "beautiful story...about the endurance of friendship when it's pushed to its limits, and you...will love it" (Cosmopolitan).

Technology and European Overseas Enterprise Jan 29 2020 Technological innovation was crucial to the process of European expansion: advances in astronomy and navigation and changes in weaponry all contributed to the emergence of European commercial enclaves in Africa and Asia, and the conquest of the Americas. This volume illustrates the ways in which these European technological advantages shaped the expansion of the global system, whilst making clear that Western technology both adapted models from other cultures and was at times seriously challenged by them. In the arts of war, the West had much less of a technological edge over its Asian adversaries than is usually believed. Substantially dealing with the issue of technology transfer between the world and Europe, these studies underline the interactive nature of the process.
