[Health Literacy](#) Sep 19 2019 To maintain their own health and the health of their families and communities, consumers rely heavily on the health information that is available to them. This information is at the core of the partnerships that patients and their families forge with today's complex modern health systems. This information may be provided in a variety of forms ranging from a discussion between a patient and a health care provider to a health promotion advertisement, a consent form, or one of many other forms of health communication common in our society. Yet millions of Americans cannot understand or act upon this information. To address this problem, the field of health literacy brings together research and practice from diverse fields including education, health services, and social and cultural sciences, and the many organizations whose actions can improve or impede health literacy. [Health Literacy: Prescription to End Confusion](#) examines the body of knowledge that applies to the field of health literacy, and recommends actions to promote a health literate society. By examining the extent of limited health literacy and the ways to improve it, we can improve the health of individuals and populations.

[To End All Wars](#) Jan 04 2021 In this riveting and suspenseful New York Times best-selling book, Adam Hochschild brings WWI to life as never before... World War I was supposed to be the "war to end all wars." Over four long years, nations around the globe were sucked into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history's most senseless spasms of carnage, defying rational explanation. [To End All Wars](#) focuses on the long-ignored moral drama of the war's critics, alongside its generals and heroes. Many of these dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain's most prominent women pacifist campaigners had a brother who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn't cooler heads prevail? And can we ever avoid repeating history?

Right. Wrong. Life is lived somewhere in between. Duchess Day Radley is a thirteen-year-old self-proclaimed outlaw. Rules are for other people. She is the fierce protector of her five-year-old brother, Robin, and the parent to her mother, Star, a single mom incapable of taking care of herself, let alone her two kids. Walk has never left the coastal California town where he and Star grew up. He may have become the chief of police, but he's still trying to heal the old wound of having given the testimony that sent his best friend, Vincent King, to prison decades before. And he's in overdrive protecting Duchess and her brother. Now, thirty years later, Vincent is being released. And Duchess and Walk must face the trouble that comes with his return. *We Begin at the End* is an extraordinary novel about two kinds of families—the ones we are born into and the ones we create.

Then We Came to the End Aug 23 2022 The National Book Award finalist and debut novel by the bestselling author of *The Dinner Party*: "A readymade classic of the office-novel genre. . . .

A truly affecting novel about work, trust, love, and loneliness." --Seattle Times No one knows us quite the same way as the men and women who sit beside us in department meetings and crowd the office refrigerator with their labeled yogurts. Every office is a family of sorts, and the ad agency Joshua Ferris brilliantly depicts in his debut novel is family at its strangest and best, coping with a business downturn in the time-honored way: through gossip, pranks, and increasingly frequent coffee breaks. With a demon's eye for the details that make life worth noticing, Joshua Ferris tells a true and funny story about survival in life's strangest environment--the one we pretend is normal five days a week.

To End a Civil War Sep 12 2021 Between 1983 and 2009 Sri Lanka was host to a bitter civil war fought between the Government and the Tamil Tigers, which sought the creation of an independent Tamil state. In May 2009 came the war's violent end with the crushing defeat of the Tamil Tigers at the hands of the Sri Lanka Army. But prior to this grim finale, for some time there had been hope for a peaceful end to the conflict. Beginning with a ceasefire agreement in early 2002, for almost five years a series of peace talks between the two sides took place in locations ranging from Thailand and Japan to Norway, Germany and Switzerland. *To End a Civil War* tells the story of trying to bring peace to Sri Lanka. In particular it tells the story of how a faraway European nation--Norway--came to play a central role in efforts to end the conflict, and what its small, dedicated team of mediators did in their untiring efforts to reach what ultimately proved the elusive goal of a negotiated peace. In doing so it fills a critical gap in our understanding of the Sri Lankan conflict. But it also illuminates in detail a much wider problem: the intense fragility that surrounds peace processes and the extraordinary lengths to which their proponents often stretch in order to secure their progress.

A Guide to Psychosocial and Spiritual Care at the End of Life May 08 2021 Psychological, social, and spiritual care is as important as physical care at the end of life. Yet caregivers often feel ill-equipped to give that nonphysical care. This book shows how to do it. The book addresses all caregivers who attend dying patients: doctors, nurses, chaplains, clergy in the pastorate, social workers, clinical psychologists, family caregivers, and others. It covers such topics as the functional and emotional trajectories of dying; the varied approaches of patients and caregivers to end-of-life decisions; culturally based beliefs about dying; the differences between depression and grief; and people's views about the right time to die, the death experience itself, and the afterlife. For each topic the book introduces core concepts and summarizes recent research about them. The book presents much of its material in readable tables for easy reference; applies the material to real-life cases; lists the main "take home" points for each chapter; and gives references for additional reading. The book helps caregivers anticipate the reactions of patients and survivors to end-of-life traumas and suggests how caregivers can respond insightfully and compassionately. At the same time the book challenges caregivers to think through their own views about death and dying. This book, therefore, is a must-read for all caregivers?professional and nonprofessional alike?who strive to give their patients comprehensive, high-quality end-of-life care.

The End of Ownership Apr 26 2020 An argument for retaining the notion of personal property in the products we "buy" in the digital marketplace. If you buy a book at the bookstore, you own it. You can take it home, scribble in the margins, put in on the shelf, lend it to a friend, sell it at a garage sale. But is the same thing true for the ebooks or other digital goods you buy? Retailers and copyright holders argue that you don't own those purchases, you merely license them. That means your ebook vendor can delete the book from your device without warning or explanation—as Amazon deleted Orwell's 1984 from the Kindles of surprised readers several years ago. These readers thought they owned their copies of 1984. Until, it

turned out, they didn't. In *The End of Ownership*, Aaron Perzanowski and Jason Schultz explore how notions of ownership have shifted in the digital marketplace, and make an argument for the benefits of personal property. Of course, ebooks, cloud storage, streaming, and other digital goods offer users convenience and flexibility. But, Perzanowski and Schultz warn, consumers should be aware of the tradeoffs involving user constraints, permanence, and privacy. The rights of private property are clear, but few people manage to read their end user agreements. Perzanowski and Schultz argue that introducing aspects of private property and ownership into the digital marketplace would offer both legal and economic benefits. But, most important, it would affirm our sense of self-direction and autonomy. If we own our purchases, we are free to make whatever lawful use of them we please. Technology need not constrain our freedom; it can also empower us.

Ending Fossil Fuels — Oct 21 2019 Ending the fossil fuel industry is the only credible path for climate policy. Around the world, countries and companies are setting net-zero carbon emissions targets. But what will it mean if those targets are achieved? One possibility is that fossil fuel companies will continue to produce billions of tons of atmospheric CO₂ while relying on a symbiotic industry to scrub the air clean. Focusing on emissions draws our attention away from the real problem: the point of production. The fossil fuel industry must come to an end but will not depart willingly; governments must intervene. By embracing a politics of rural-urban coalitions and platform governance, climate advocates can build the political power needed to nationalize the fossil fuel industry and use its resources to draw carbon out of the atmosphere.

The End of Your Life Book Club — Jun 09 2021 "What are you reading?" That's the question Will Schwalbe asks his mother, Mary Anne, as they sit in the waiting room of the Memorial Sloan-Kettering Cancer Center. In 2007, Mary Anne returned from a humanitarian trip to Pakistan and Afghanistan suffering from what her doctors believed was a rare type of hepatitis. Months later she was diagnosed with a form of advanced pancreatic cancer, which is almost always fatal, often in six months or less. This is the inspiring true story of a son and his mother, who start a "book club" that brings them together as her life comes to a close. Over the next two years, Will and Mary Anne carry on conversations that are both wide-ranging and deeply personal, prompted by an eclectic array of books and a shared passion for reading. Their list jumps from classic to popular, from poetry to mysteries, from fantastic to spiritual. The issues they discuss include questions of faith and courage as well as everyday topics such as expressing gratitude and learning to listen. Throughout, they are constantly reminded of the power of books to comfort us, astonish us, teach us, and tell us what we need to do with our lives and in the world. Reading isn't the opposite of doing; it's the opposite of dying. Will and Mary Anne share their hopes and concerns with each other—and rediscover their lives—through their favorite books. When they read, they aren't a sick person and a well person, but a mother and a son taking a journey together. The result is a profoundly moving tale of loss that is also a joyful, and often humorous, celebration of life: Will's love letter to his mother, and theirs to the printed page. This eBook edition includes a Reading Group Guide.

To End a Plague — Jun 21 2022 "Randy Shilts and Laurie Garrett told the story of the HIV/AIDS epidemic through the late 1980s and the early 1990s, respectively. Now journalist-historian-activist Emily Bass tells the story of US engagement in HIV/AIDS control in sub-Saharan Africa. There is far to go on the path, but Bass tells us how far we've come." —Sten H. Vermund, professor and dean, Yale School of Public Health With his 2003 announcement of a program known as PEPFAR, George W. Bush launched an astonishingly successful American war against a global pandemic. PEPFAR played a key role in slashing HIV cases and AIDS deaths in sub-Saharan Africa, leading to the brink of epidemic control. Resilient in the face of flatlined funding and political headwinds, PEPFAR is America's singular example of how to fight long-term plague—and win. To End a Plague is not merely the definitive history of this extraordinary program; it traces the lives of the activists who first impelled President Bush to take action, and later sought to prevent AIDS deaths at the whims of American politics. Moving from raucous street protests to the marbled halls of Washington and the clinics and homes where Ugandan people living with HIV fight to survive, it reveals an America that was once capable of real and meaningful change—and illuminates imperatives for future pandemic wars. Exhaustively researched and vividly written, this is the true story of an American

moonshot.

Indigenous Perceptions of the End of the World Dec 03 2020 This edited volume constructs a 'cosmopolitics' of climate change, consulting small-scale sustainable communities on whether the world is ending and why, and how we can take action to prevent it. By comparing scientific and indigenous accounts of the same phenomenon, contributors seek to broaden Western understandings of what climate change constitutes. In this context, existing cosmologies are challenged, opening spaces for hegemonic narratives to enter into conversation with the non-modern and construct 'worlds otherwise'—situations of world change and renewal through climate change. Bold brings together perspectives from Central America, Mexico, the Amazon, and the Andes to converse with scientific narratives of climate change and create cracks that bring new worlds into being for readers.

End to End Jul 30 2020 'A really great read, fascinating, moving' Adrian Chiles The End to End record is the longest place-to-place cycling record in Britain. It is a daunting 842 miles and for the men and women who attempt to break the record, there can be no second place, only the binary outcome of total success or failure. Paul Jones decided to ride from Land's End to John O' Groats to try to understand the relentless physical and mental challenges involved. End to End is a captivating and beautifully written narrative. A lyrical account of the journey sits alongside meetings with amazing cyclists; people like Eileen Sheridan; who covered the distance in under three days in 1954, or current men's record holder Michael Broadwith who did it in a scarcely believable 43 hours. End to End is a portrayal of hope and ambition, of what happens when things go wrong and how hard it is to make them right. It is about courage, obsession and joy, but above all else, it is a compelling exploration of why journeys matter for all of us. 'A brilliant book, a triple trip: one on the road, one in History and one into the author's mind. Cycling is about all that' Paul Fournel 'Jones's funny and affectionate book is a celebration of "the fellowship of the road"' Spectator 'A truly excellent book . . . Paul Jones's End To End is a wonderful, sometimes frenetic and deeply honest book by a man bursting with passion for cycling, its cultures and lore, and people who do extraordinary things' BikeRadar

A Beginner's Guide to the End Mar 26 2020 "I wish I'd had this book when I needed it. Death and dying are not subjects that many people are comfortable talking about, but it's hugely important to be as prepared as you can be - emotionally, physically, practically, financially, and spiritually. This book may be the most important guide you could have." - Elizabeth Gilbert, author of Eat Pray Love _____ The end of a life can often feel like a traumatic, chaotic and inhuman experience. In this reassuring and inspiring book, palliative care physician Dr BJ Miller and writer Shoshana Berger provide a vision for rethinking and navigating this universal process. There are plenty of self-help books for mourners, but nothing in the way of a modern, approachable and above all useful field guide for the living. And all of us - young, old, sick and well - could use the help. After all, pregnant couples have ample resources available to them as they prepare to bring a new life into the world: Lamaze courses, elaborate birth plans, tons of manuals. Why don't we have a What to Expect When You're Expecting to Die book? An accessible, beautifully designed and illustrated companion, A Beginner's Guide to the End offers a clear-eyed and compassionate survey of the most pressing issues that come up when one is dying, and will bring optimism and practical guidance to empower readers with the knowledge, resources and tools they'll need to die better, maybe even with triumph.

The End Nov 02 2020 The notion of 'the end' has long occupied philosophical thought. In light of the horrors of the twentieth century, some writers have gone so far as to declare the end of philosophy itself, emphasizing the impossibility of thinking after Auschwitz. In this book the distinguished philosopher Alain Badiou, in dialogue with Giovanbattista Tusa, argues that we must renounce 'the pathos of completion' and continue to think philosophically. To accept the atrocities of the twentieth century as marking the end of philosophy is intolerable precisely because it buys into the totalizing doctrines of the perpetrators. Badiou contends that philosophical thinking is needed now more than ever to

counter the totalizing effects of globalized capitalism, which prescribes no objective for human life other than integration into its system, giving rise to a widespread sense of hopelessness and nihilism. This book will appeal to the many followers of Badiou's work and to anyone interested in contemporary philosophy and radical political theory.

I Was Hungry Jan 24 2020 Hunger is one of the most significant issues in America. One in eight Americans struggles with hunger, and more than thirteen million children live in food insecure homes. As Christians we are called to address the suffering of the hungry and poor: "For I was hungry, and you gave me food . . ." (Matthew 25:35). However, the problems of hunger and poverty are too large and too complex for any one of us to resolve individually. I Was Hungry offers not only an assessment of the current crisis but also a strategy for addressing it. Jeremy Everett, a noted advocate for the hungry and poor, calls Christians to work intentionally across ideological divides to build trust with one another and impoverished communities and effectively end America's hunger crisis. Everett, appointed by US Congress to the National Commission on Hunger, founded and directs the Texas Hunger Initiative, a successful ministry that is helping to eradicate hunger in Texas and around the globe. Everett details the organization's history and tells stories of its work with communities from West Texas to Washington, DC, helping Christians of all political persuasions understand how they can work together to truly make a difference.
