The Irrationals Nov 14 2021 The first popular history of irrational numbers and their discoverers, from ancient Greece to the twenty-first century The ancient Greeks discovered them, but it wasn't until the nineteenth century that irrational numbers were properly understood and rigorously defined, and even today not all their mysteries have been revealed. In The Irrationals, the first popular and comprehensive book on the subject, Julian Havil tells the story of irrational numbers and the mathematicians who have tackled their challenges, from antiquity to the twenty-first century. Along the way, he explains why irrational numbers are surprisingly difficult to define—and why so many questions still surround them. Fascinating and illuminating, this is a book for everyone who loves math and the history behind it.

**The Secret Hum of a Daisy** Aug 11 2021 Twelve-year-old Grace and her mother have always been their own family, traveling from place to place like gypsies. But Grace wants to finally have a home all their own. Just when she thinks she's found it her mother says it's time to move again. Grace summons the courage to tell her mother how she really feels and will always regret that her last words to her were angry ones. After her mother's sudden death, Grace is forced to live with a grandmother she's never met. She can't imagine her mother would want her to stay with this stranger. Then Grace finds clues in a mysterious treasure hunt, just like the ones her mother used to send her on. Maybe it is her mother, showing her the way to her true home. Lyrical, poignant and fresh, The Secret Hum of a Daisy is a beautifully told middle grade tale with a great deal of heart.

*DoD Building Code (General Building Requirements)* Sep 19 2019 If you like this book (or the Kindle version), please leave positive review. This update to UFC 1-200-01 represents the Tri-Services effort to bring uniformity to the military use of non-government model building codes. Technical representatives of each of the four Services developed requirements in this document to implement the use of the 2015 International Building Code (IBC) consistent with the scope of current military requirements and procedures. This UFC applies to the design and construction of new and renovated Government-owned facilities for the Department of Defense (DoD). It is applicable to all methods of project delivery and levels of construction. Includes a list of applicable NIST cybersecurity publications for consideration. Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material. We publish compact, tightly-bound, full-size books (8 • by 11 inches), with glossy covers. 4th Watch Books is a Service Disabled Veteran-Owned Small Business (SDVOSB). In the Field of Grace May 08 2021 Two women. All alone. With no provision...Can they find hope in a foreign land? Ruth leaves her home with a barren womb and an empty future after losing her husband. She forsakes her abusive parents and follows the woman she has grown to love as a true parent, her late husband's mother, Naomi. Ruth arrives in Israel with nothing to recommend her but Naomi's love. She is destitute, grief-stricken, and unwanted by the people of God. But God has great plans for her. While everyone considers Ruth an unworthy outsider, she is shocked to find the owner of the field—one of the wealthiest and most honored men of Judah—is showing her favor. Long since a widower and determined to stay that way, Boaz finds himself irresistibly drawn to the foreign woman with the dark, haunted eyes. He tells himself he is only being kind to his cousin Naomi's chosen daughter when he goes out of his way to protect her from harm, but his heart knows better. Obstacles. Heartache. Withered dreams. How can God forge love, passion, and new hope between two such different people?

**Insolvency and Bankruptcy Reforms in India** Oct 21 2019 This book is about the establishment of the Insolvency and Bankruptcy Code, in 2016, one of the most important new developments in Indian commercial law. The law has major implications for firms, their creditors, and a variety of the professional services that feed into the decisions of borrowers and lenders including lawyers, accountants and valuers. A new profession of insolvency professionals has come to exist owing to the law. There are several questions about bankruptcy reform in the mind of researchers, policy makers and practitioners. How has the reform progressed? How has it reshaped the incentives of firms? What are the difficulties faced? What are the optimal paths for borrowers and lenders and their advisors under the rubric of the law? How should laws and institutions be modified? The book has a unique set of chapters, by key people who have shaped the field which offer novel insights into these questions. The book has been edited by key people who have worked on bankruptcy reform since 2010. Dr. Sahoo has been the chairperson of the Insolvency and Bankruptcy Board of India since the establishment of this regulatory agency. Dr. Thomas was a member of the Bankruptcy Law Reforms Committee which drafted the IBC, and led the internal team of the BLRC which drafted the law. The book is an authentic and credible analysis of the happenings in the Indian insolvency and bankruptcy ecosystem from the start, with interest areas for international and domestic, economics/finance and law, researcher and practitioner communities.

*Seismic Design for Buildings* Aug 19 2019 The Unified Facilities Criteria (UFC) system is prescribed by MIL-STD 3007 and provides planning, design, construction, sustainment, restoration, and modernization criteria, and applies to the Military Departments, the Defense Agencies, and the DoD Field Activities in accordance with USD(AT&L) Memorandum dated 29 May 2002. UFC will be used for all DoD projects and work for other customers where appropriate. All construction outside of the United States is also governed by Status of Forces Agreements (SOFA), Host Nation Funded Construction Agreements (HNFA), and in some instances, Bilateral Infrastructure Agreements (BIA.) Therefore, the acquisition team must ensure compliance with the more stringent of the UFC, the SOFA, the HNFA, and the BIA, as applicable. UFC are living documents and will be periodically reviewed, updated, and made available to users as part of the Services' responsibility for providing technical criteria for military construction. Headquarters, U.S. Army Corps of Engineers (HQUSACE), Naval Facilities Engineering Command (NAVFAC), and Air Force Civil Engineer Support Agency (AFCEA) are responsible for administration of the UFC system. Defense agencies should contact the preparing service for document interpretation and improvements. Technical content of UFC is the responsibility of the cognizant DoD working group. Recommended changes with supporting rationale should be sent to the respective service proponent office by the following electronic form: Criteria Change Request (CCR).
