[In Battle for Peace](#) Aug 18 2021 W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, *In Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.

Obvious Conclusions Sep 06 2020 What starts with innocent maneuvering and flattery of a gay boss to earn a work trip to London ends with near death in a brothel. Thus begins Obvious Conclusions, stories of a Midwestern emigrant influenced and corrupted by many years living in San Francisco and abroad. From bidet mishaps, to delicious online encounters, Obvious Conclusions embraces a life that is both debauchorous and delightful! Disciple IV Feb 09 2021 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Information Modelling and Knowledge Bases XXIX Jul 29 2022 Information modelling and knowledge bases have become ever more essential in recent years because of the need to handle and process the vast amounts of data which now form part of everyday life. The machine to machine communication of the Internet of Things (IoT), in particular, can generate unexpectedly large amounts of raw data. This book presents the proceedings of the 27th International Conference on Information Modelling and Knowledge Bases (EJC2017), held in Krabi, Thailand, in June 2017. The EJC conferences originally began in 1982 as a co-operative initiative between Japan and Finland, but have since become a world-wide research forum bringing together researchers and practitioners in information modelling and knowledge bases for the exchange of scientific results and achievements. Of the 42 papers submitted, 29 were selected for publication here, and these cover a wide range of information-modelling topics, including the theory of concepts, semantic computing, data mining, context-based information retrieval, ontological technology, image databases, temporal and spatial databases, document data management, software engineering, cross-cultural computing, environmental analysis, social networks, and WWW information. The book will be of interest to all those whose work involves dealing with large amounts of data.

Slave Stealers May 15 2021 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings—Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman—The "Conductor"; Abraham Lincoln—the "Great Emancipator"; Little Mia—the sister who saved her little brother; Guesnoe Marty—the Haitian father who lost his son to slave traders; and Harriet Jacobs—a teacher for us all.

"The Place is Too Small for Us" Dec 22 2021 "The title of this volume is, of course, taken from 2 Kgs 6:1, where the prophetic group about Elisha point out that their accommodation is too cramped. It seemed an apt comment on the capacity of any proposed volume to house and adequate representation of the work that has recently been done on Israelite prophecy. To this I now have to add the all-too-ironic confession that the so-called pre-classical prophets (including Elisha and his colleagues) could not be accommodated in the present volume. Let no one complain about being misled by the subtitle when the title is so honest ... there are thirty-six items of varying length, and they divide almost equally between journal articles and excerpts from volumes (some of these of composite authorship). Naturally, they represent one individual's selection from within his personal reading, and this itself accounts for only a fraction of the vast scholarly output on the prophets, whether since 1875 or since 1975 ... It will be apparent at several places in the volume that I take with great seriousness the study of Near Eastern (non-Israelite) prophecy as background to the Israelite phenomenon, so that the first short section (The Near Eastern Background) was unavoidable."--Editor's preface.

Inverse Theory for Petroleum Reservoir Characterization and History Matching Aug 25 2019 This book is a guide to the use of inverse theory for estimation and conditional simulation of flow and transport parameters in porous media. It describes the theory and practice of estimating properties of underground petroleum reservoirs from measurements of flow in wells, and it explains how to characterize the uncertainty in such estimates. Early chapters present the reader with the necessary background in inverse theory, probability and spatial statistics. The book demonstrates how to calculate sensitivity coefficients and the linearized relationship between models and production data. It also shows how to develop iterative methods for generating estimates and conditional realizations. The text is written for researchers and graduates in petroleum engineering and groundwater hydrology, and can be used as a textbook for advanced courses on inverse theory in petroleum engineering. It includes many worked examples to demonstrate the methodologies and a selection of exercises.

THE KALEVALA or Land of Heroes - New Improved Edition Sep 18 2021 THE following translation was undertaken from a desire to lay before the English-speaking people the full treasury of epical beauty, folklore, and mythology comprised in The Kalevala (the Land of Heroes, the national epic of the Finns.) The Kalevala describes Finnish nature very minutely and very beautifully. Grimm says that no poem is to be compared with it in this respect. A deeper and more esoteric meaning of the Kalevala, however, points to a contest between Light and Darkness. The numerous myths of the poem are likewise full of significance and beauty, and the Kalevala should be read between the lines, in order that the full meaning of this great epic may be comprehended. The whole poem is replete with the most fascinating folk-lore about the mysteries of nature, the origin of things, the enigmas of human tears, and, true to the character of a national epic, it represents not only the poetry, but the entire wisdom and accumulated experience of a nation. One of the most notable characteristics of the Finnish mythology is the interdependence among the gods. The Finnish deities, like the ancient gods of Italy and Greece, are generally represented in pairs. They have their individual abodes and are surrounded by their respective families. The Sun and the Moon each have a consort, and sons and daughters. Only two sons of Paeivae appear in The Kalevala, one comes to aid of Wainamoinen in his efforts to destroy the mystic Fire-fish, by throwing from the heavens to the girdle of the hero, a "magic knife, silver-edged, and golden-handled;" the other son, Panu, the Fire-child, brings back to Kalevala the fire that had been stolen by Louhi, the wicked hostess of Pohyola. 10% of the net profit from the sale of this book will be donated to charities.

High Efficiency Video Coding (HEVC) Sep 30 2022 This book provides developers, engineers, researchers and students with detailed knowledge about the High Efficiency Video Coding (HEVC) standard. HEVC is the successor to the widely successful H.264/AVC video compression standard, and it provides around twice as much compression as H.264/AVC for the same level of quality. The applications for HEVC will not only cover the space of the well-known current uses and capabilities of digital video – they will also include the deployment of new services and the delivery of enhanced video quality, such as ultra-high-definition television (UHDTV) and video with higher dynamic range, wider range of representable color, and greater representation precision than what is typically found today. HEVC is the next major generation of video coding design – a flexible, reliable and robust solution that will support the next decade of video applications and ease the burden of video on world-wide network traffic. This book provides a detailed explanation of the various parts of the standard, insight into how it was developed, and in-depth discussion of algorithms and architectures for its implementation.
