use both in the classroom or at home. It also includes extra vocabulary exercises corresponding to the expanded lexical sets in the Student's Book 'Vocabulary bank'. 'Study Help' and 'Skills Tips' sections give learners extra support and guidance. The audio content to accompany the workbook is included on the Student's Book DVD-ROM and on the Audio CDs.

**Problem Solving** May 17 2021

This workbook is designed to give students practice in developing problem-solving skills. It is designed for the primary-age child and is compatible with classroom instruction. The pages are presented in a suggested order, but may be used in any order which best meets a child's needs. Parents who wish their children to have practice in problem solving will find the book as helpful as classroom teachers will find it. The exercises are presented so that a child can work with a minimum of supervision. Answers are included in a four-page leaflet in the middle of

the book. This leaflet can be easily removed.

persuasive language, writing reports, and developing character in creative pieces. Students will learn the process of giving others their thoughts in written form through three areas: creative, research and reports, and explanatory. Every exercise will guide them in the development of communication skills they need. Topics addressed in this one-year course include: Recognizing the three points of view writers use Describing what has been seen over a period of days and writing a scientific report Understanding the organization of an explanatory exposition Developing effective characters and conflict in creative writing Identifying common literary devices in the Bible Understanding why literary devices are used A suggested schedule is provided, as well as worksheets that are three-hole punched and perforated, and the addition of a reading and literature component helps students look more deeply into the Bible and other books they select.

## **Bargain Math: Life Skills Math Series** Aug 08 2020

Grade Level: 6-8 Interest Level: 8-12 A really practical application of math. Each book includes activities such as reading comprehension, filling out forms, using a glossary, and answering math word problems. The multi-step word problems cover adding and subtracting money, multiplying and dividing money, figuring percentages, working with large numbers, and more. This life skills program will help students master math skills that are essential to everyday life! Early knowledge of the wisdom of shopping wisely helps to establish valuable, lifelong consumer habits. Introduce students to the many ways they can judge a purchase to determine if it is the best possible choice. The math word problems will help reinforce the lessons presented and promote awareness of the advantages to smart shopping. 64 pages.

**Airport Fire Fighter** Apr 15 2021 Exam Prep: Airport Fire Fighter is part of Jones and

Bartlett's comprehensive series of exam preparation manuals for fire service professionals. The series author, Dr. Ben A. Hirst through his company, Performance Training Systems, writes and validates actual certification and promotional exams for state fire training agencies and major fire departments nationwide. Each book in the Exam Prep series includes questions that have been used on these actual exams. This manual contains three full-length practice exams with self-scoring guides and page references to major texts and references on the subject. Winning test-taking tips and helpful hints are also provided. The manual follows Dr. Hirst's Systematic Approach to Exam Preparation, which provides immediate feedback to help students emphasize areas of weakness and learn material through context and association.

**180 Days of Geography for Second Grade** Apr 03 2020

Supplement your social studies curriculum with 180 days of daily geography practice! This

essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on North American regions, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps, climate maps, and various topics.
