Media Ecologies Apr 10 2021 A "dirty materialist" ride through the media cultures of pirate radio, photography, the Internet, media art, cultural evolution, and surveillance.

Love in a Time of Hate Jun 19 2019 A young man from Maine fights for social equality in New Orleans after the Civil War while pursuing a serial killer, becoming enmeshed in voodoo, and falling in love. Much like Louisiana's famous gumbo, Love in A Time Of Hate: New Orleans During Reconstruction is a spicy dish of varied ingredients. The main theme is the struggle for social equality between Whites, Blacks, and Creoles, but flavor is added with the subplots of politics, voodoo, murder, love, and hate. New Orleans becomes a literal battleground as carpetbaggers, scalawags, Creoles, and recently freed slaves fight against the entrenched southern plantation notion of white superiority.

Nonlinear Circuit Simulation and Modeling Sep 15 2021 A practical, tutorial guide to the nonlinear methods and techniques needed to design real-world microwave circuits.

I Know a Secret Aug 26 2022 Expect a white-knuckle ride to very dark places.' Paula Hawkins When a young woman is found dead, Detective Jane Rizzoli and Forensic Pathologist Maura Isles are called to the scene of the murder. Though the body bears startling wounds, the actual cause of death is not immediately clear. A few days later, another body is discovered - a seemingly unrelated crime, but the lack of an obvious cause of death shows they have more in common than it would first appear. As Rizzoli and Isles race to discover the link between the victims before the killer can strike again, a mysterious person watches from the sidelines. She has the answers they're looking for. But she knows she has to stay quiet, if she wants to stay alive . . . 'A fast-paced, dark, edgy mystery/thriller filled with unremitting suspense.' Huffington Post

Divine Justice Mar 21 2022 With a master spy and the U. S. government after him, former CIA assassin Oliver Stone is America's most wanted man-but escaping D.C. won't protect him from a lethal world of political corruption in this #1 New York Times bestselling thriller. Known by his alias, "Oliver Stone," John Carr is the most wanted man in America. With two pulls of the trigger, the men who destroyed Stone's life and kept him in the shadows were finally silenced. But his freedom comes at a steep price: The assassinations he carried out prompt the highest levels of the U.S. government to unleash a massive manhunt. Yet behind the scenes, master spy Macklin Hayes is playing a very personal game of cat and mouse. He, more than anyone else, wants John Carr dead. With their friend and unofficial leader in hiding, the members of the Camel Club risk everything to save him. As the hunters close in, Stone's flight from the demons of his past will take him from the power corridors of Washington, D.C., to the coal-mining town of Divine, Virginia--and into a world every bit as bloody and lethal as the one he left behind.

Botticelli Past and Present Sep 22 2019 The recent exhibitions dedicated to Botticelli around the world show, more than ever, the significant and continued debate about the artist. Botticelli Past and Present engages with this debate. The book comprises four thematic parts, spanning four centuries of Botticelli's artistic fame and reception from the fifteenth century. Each part comprises a number of essays and includes a short introduction which positions them within the wider scholarly literature on Botticelli. The parts are organised chronologically beginning with discussion of the artist and his working practice in his own time, moving onto the progressive rediscovery of his work from the late eighteenth to the turn of the twentieth century, through to his enduring impact on contemporary art and design. Expertly written by researchers and eminent art historians and richly illustrated throughout, the broad range of essays in this book make a valuable contribution to Botticelli studies.

Hollywood Vs. the Author May 23 2022 "Hollywood Versus The Author is a collection of non-fiction anecdotes by authors who've had the pleasure of experiencing the development room firsthand--some who have successfully managed to straddle the two worlds, seeing their works morph into the kinds of feature films and TV shows that make them proud, and others who stepped blindsided into that room after selling their first or second novels. All the stories in this collection illustrate the great divide between the world of literature and the big or small screen. They underscore the insanity of every crazy thing you've ever heard about Hollywood. For insiders and outsiders alike, Hollywood Versus The Author delivers the goods."--Page [4] of cover.

The Cambridge Companion to Hip-Hop Oct 16 2021 This Companion covers the hip-hop elements, methods of studying hip-hop, and case studies from Nerdcore to Turkish-German and Japanese hip-hop.

The Mephisto Club Jul 25 2022 Jane Rizzoli and Maura Isles--the inspiration for the hit TNT series--continue their bestselling crime-solving streak . Evil exists. Evil walks the streets. And evil has spawned a diabolical new disciple in this white-knuckle thriller from New York Times bestselling author Tess Gerritsen. PECCAVI The Latin word is scrawled in blood at the scene of a young woman's brutal murder: I HAVE SINNED. It's a chilling Christmas greeting for Boston medical examiner Maura Isles and Detective Jane Rizzoli, who swiftly link the victim to controversial celebrity psychiatrist Joyce O'Donnell-Jane's professional nemesis and member of a sinister cabal called the Mephisto Club. On top of Beacon Hill, the club's acolytes devote themselves to the analysis of evil: Can it be explained by science? Does it have a physical presence? Do demons walk the earth? Drawing on a wealth of dark historical data and mysterious religious symbolism, the Mephisto scholars aim to prove a startling theory: that Satan himself exists among us. With the grisly appearance of a corpse on their doorstep, it's clear that someone--or something--is indeed prowling the city. The members of the club begin to fear the very subject of their study. Could this maniacal killer be one of their own--or have they inadvertently summoned an evil entity from the darkness? Delving deep into the most baffling and unusual case of their careers, Maura and Jane embark on a terrifying journey to the very heart of evil, where they encounter a malevolent foe more dangerous than any they have ever faced . . . one whose work is only just beginning. This ebook edition contains a special preview of Tess Gerritsen's I Know a Secret.

Mindfreak Nov 17 2021 The hottest magician in years takes us behind-the-scenes of his hit A&E show and offers secret tips to 25 illusions you won't see anywhere else. Criss Angel is poised to take the magic world by storm. He had his first 1-hour special on ABC in '01, headlined Madison Square Garden's annual Halloween special a year later to an audience of 60,000, performed in front of 75,000 people in Times Square, had two subsequent 1-hour specials on the Sci-Fi channel, he's received countless magician awards, and he currently has a groundbreaking show on A&E called CRISS ANGEL MINDFREAK, the first weekly magic show in over 40 years, that consistently wins its timeslot. MINDFREAK - the book - will be an extension of the show, which uses a specific topic each week - like 'Buried Alive', 'Bullet Catch', 'Building Walk', or 'Levitation' - to delve into the history of each subject, and see if Criss can't break new ground by doing something no one has done before. We are also going to try and include secrets in the book - clues to be dissected by readers - that relate back to magic he will perform on the show, where the book will be heavily promoted.

Agile Artist Apr 29 2020 Do you see yourself as an artist? Colin Egglefield never thought an artistic career path was realistic. He always made room for creativity, but it was never his life's focus. But then a chance encounter with an acting class, before committing to medical school, made Colin realize that an artistic career was possible. The path wasn't easy. Breaking into Hollywood can be quite a challenge. On top of that, he was diagnosed with cancer, not once, but twice. In "Agile Artist," Colin shares lessons he learned from his struggles to make a career in Hollywood, finding courage and support through personal health battles and tragedies. Along the way, he shares the riveting story of his ground-zero experience on 9/11 as well as his social impact projects in Chicago. This is the story of Colin's journey into creative discovery and his attempts to connect with a more authentic version of himself to become an Agile Artist. Colin emphasizes his belief that we are all artists in some form or another, even if we haven't connected with that part of ourselves. In 'Agile Artist,' he shares his rich life stories and provides plenty of inventive strategies to help you break through to your creative, true self. Beyond this powerful book Colin invites you to join his artist community, where together, we can all support, motivate and share who we are to create not only better lives but a better world.

Criticizing Photographs Aug 22 2019 This brief text is designed to help both beginning and advanced students of photography better develop and articulate thoughtful criticism. Organized around the major activities of criticism (describing, interpreting, evaluating, and theorizing), Criticizing Photographs provides a clear framework and vocabulary for students' critical skill development.

The Silent Girl (with bonus short story Freaks) Dec 18 2021 NEW YORK TIMES BESTSELLER Rizzoli & Isles now a series on TNT In the murky shadows of Boston's Chinatown lies a severed hand. On the tenement rooftop above is the corpse belonging to that hand, a red-haired woman dressed in black, her head nearly decapitated. Two strands of silver hair--not human--cling to her body. They are homicide cop Jane Rizzoli's only clues, but they're enough for her and medical examiner Maura Isles to make the startling discovery: that this violent death had a chilling prequel. Nineteen years earlier, a horrifying murder-suicide in a Chinatown restaurant left five people dead. One woman connected to that massacre is still alive--a mysterious martial arts master who is now the target of someone, or something, deeply and relentlessly evil. Cracking a crime with bone-chilling echoes of an ancient Chinese legend, Rizzoli and Isles must outwit an unseen enemy with centuries of cunning--and a swift, avenging blade. Don't miss Tess Gerritsen's short story "Freaks" in the back of the eBook.

The Bone Garden Jun 24 2022 Unknown bones, untold secrets, and unsolved crimes from the distant past cast ominous shadows on the present in the dazzling new thriller from New York Times bestselling author Tess Gerritsen. Present day: Julia Hamill has made a horrifying discovery on the grounds of her new home in rural Massachusetts: a skull buried in the rocky soil-human, female, and, according to the trained eye of Boston medical examiner Maura Isles, scarred with the unmistakable marks of murder. But whoever this nameless woman was, and whatever befell her, is knowledge lost to another time. Boston, 1830: In order to pay for his education, Norris Marshall, a talented but penniless student at Boston Medical College, has joined the ranks of local "resurrectionists"--those who plunder graveyards and harvest the dead for sale on the black market. Yet even this ghoulish commerce pales beside the shocking murder of a nurse found mutilated on the university hospital grounds. And when a distinguished doctor meets the same grisly fate, Norris finds that trafficking in the illicit cadaver trade has made him a prime suspect. To prove his innocence, Norris must track down the only witness to have glimpsed the killer: Rose Connolly, a beautiful seamstress from the Boston slums who fears she may be the next victim. Joined by a sardonic, keenly intelligent young man named Oliver Wendell Holmes, Norris and Rose comb the city--from its grim cemeteries and autopsy suites to its glittering mansions and centers of Brahmin power--on the trail of a maniacal fiend who lurks where least expected . . . and who waits for his next lethal opportunity. With unflinching suspense and pitch-perfect period detail, The Bone Garden deftly interweaves the thrilling narratives of its nineteenth- and twenty-first century protagonists, tracing the dark mystery at its heart across time and place to a finale as ingeniously conceived as it is shocking. Bold, bloody, and brilliant, this is Tess Gerritsen's finest achievement to date. This ebook edition contains a special preview of Tess Gerritsen's I Know a Secret. "The story, which digs up a dark Boston of times long past, entices readers to keep turning pages long after their bedtimes."--Kirkus Reviews (starred)

Switchmode RF and Microwave Power Amplifiers May 31 2020 Switchmode RF and Microwave Power Amplifiers, Third Edition is an essential reference book on developing RF

and microwave switchmode power amplifiers. The book combines theoretical discussions with practical examples, allowing readers to design high-efficiency RF and microwave power amplifiers on different types of bipolar and field-effect transistors, design any type of high-efficiency switchmode power amplifiers operating in Class D or E at lower frequencies and in Class E or F and their subclasses at microwave frequencies with specified output power, also providing techniques on how to design multiband and broadband Doherty amplifiers using different bandwidth extension techniques and implementation technologies. This book provides the necessary information to understand the theory and practical implementation of load-network design techniques based on lumped and transmission-line elements. It brings a unique focus on switchmode RF and microwave power amplifiers that are widely used in cellular/wireless, satellite and radar communication systems which offer major power consumption savings. Provides a complete history of high-efficiency Class E and Class F techniques. Presents a new chapter on Class E with shunt capacitance and shunt filter to simplify the design of high-efficiency power amplifier with broader frequency bandwidths. Covers different Doherty architectures, including integrated and monolithic implementations, which are and will be, used in modern communication systems to save power consumption and to reduce size and costs. Includes extended coverage of multiband and broadband Doherty amplifiers with different frequency ranges and output powers using different bandwidth extension techniques. Balances theory with practical implementation, avoiding a cookbook approach and enabling engineers to develop better designs, including hybrid, integrated and monolithic implementations.

Cabana Anthology Dec 26 2019 Cabana Anthology, drawn from the sought-after, sumptuous biannual Cabana magazine, celebrates the most luxurious personal statements in interior design, lifestyle, architecture, and all related luxuries. Founded in 2014 by Martina Mondadori Sartogo, Cabana Anthology features the very best photography, interviews, profiles, and features from the publication's first five formative years and offers an extraordinary mix of topics, interiors, objects, and visual essays from contributors ranging from Justine Picardie, Patrick Kinmonth, and Christian Louboutin to Lauren Santo Domingo and Gianluca Longo, photographed by the likes of Miguel Flores-Vianna and Tim Beddow. With astonishing production values not seen since the legendary *Flair* magazine of the 1950s, this new book—which will be a true collector's item—is a must-have for regular subscribers, as well as art and design aficionados who missed out the first time around. Due to the unique cloth binding of this book, covers may vary slightly from the example shown here, and will be shipped to customers at random.

Hypoparathyroidism Oct 04 2020 Hypoparathyroidism, a condition in which insufficient parathyroid hormone (PTH) is produced to maintain normocalcemia is associated with a variety of acute and chronic symptoms and complications due to hypocalcemia. Replacement therapy utilizing PTH has long been awaited, and this book is new and very timely as it coincides with the publication of results on the role of the PTH molecule in the pharmacological management of this disorder. This advance is sparking renewed interest in hypoparathyroidism, which is attributable to neck surgery in most cases and to inherited disorders in a minority. Hypoparathyroidism has been written by acknowledged experts in the field and provides essential, up-to-date information on the pathology, diagnosis, and treatment of the condition. It opens by addressing in detail the anatomy and physiology of the parathyroids and describing the epidemiology and clinical presentation of hypoparathyroidism. The full range of hypoparathyroid disorders are then discussed, including the various genetic forms, postoperative hypoparathyroidism, and other forms of acquired hypoparathyroidism. Individual chapters focus on refractory disease, the impact of the condition on bone, and the management of acute hypocalcemia. Both conventional treatment for hypoparathyroidism and the novel replacement therapy with PTH peptides are then thoroughly examined. Pseudohypoparathyroidism is also extensively discussed, with information on the various forms, differential diagnosis, and genetic testing. This book will be of interest to all endocrinologists, and also to surgeons and internal medicine physicians.

Graphic Design Aug 14 2021 How do designers get ideas? Many spend their time searching for clever combinations of forms, fonts, and colors inside the design annuals and monographs of other designers' work. For those looking to challenge the cut-and-paste mentality there are few resources that are both informative and inspirational. In *Graphic Design: The New Basics*, Ellen Lupton, best-selling author of such books as *Thinking with Type* and *Design It Yourself*, and design educator Jennifer Cole Phillips refocus design instruction on the study of the fundamentals of form in a critical, rigorous way informed by contemporary media, theory, and software systems.

The Keepsake Nov 05 2020 Medical examiner Maura Isles is shocked to discover that a supposedly ancient mummy is actually a recent murder victim, and joins forces with Boston PD detective Jane Rizzoli in an investigation that uncovers other similar crimes.

Cybernetics and Systems Jan 27 2020 Society is now facing challenges for which the traditional management toolbox is increasingly inadequate. Well-grounded theoretical frameworks, such as systems thinking and cybernetics, offer general level interpretation schemes and models that are capable of supporting understanding of complex phenomena and are not impacted by the passage of time. This book serves the knowledge society to address the complexity of decision making and problem solving in the 21st century with contributions from systems and cybernetics. A multi-disciplinary approach has been adopted to support diversity and to develop inter- and trans-disciplinary knowledge within the shared thematic of problem solving and decision making in the 21st century. Its conceptual thread is cyber/systemic thinking, and its realisation is supported by a wide network of scientists on the basis of a highly participative agenda. The book provides a platform of knowledge sharing and conceptual frameworks developed with multi-disciplinary perspectives, which are useful to better understand the fast changing scenario and the complexity of problem solving in the present time.

Next-Generation Probiotics: From Commensal Bacteria to Novel Drugs and Food Supplements Feb 26 2020

Emerging zoonoses, eco-epidemiology, involved mechanisms and public health implications Jan 07 2021 Zoonoses are currently considered as one of the most important threats for public health worldwide. Zoonoses can be defined as any disease or infection that is naturally transmissible from vertebrate or invertebrate animals to humans and vice-versa. Approximately 75% of recently emerging infectious diseases affecting humans are diseases of animal origin; approximately 60% of all human pathogens are zoonotic. All types of potential pathogenic agents, including viruses, parasites, bacteria and fungi, can cause these zoonotic infections. From the wide range of potential vectors of zoonoses, insects are probably those of major significance due to their abundance, high plasticity and adaptability to different kinds of pathogens, high degrees of synanthropism in several groups and difficulties to apply effectively programs of population control. Although ticks, flies, cockroaches, bugs and fleas are excellent insects capable to transmit viruses, parasites and bacteria, undoubtedly mosquitoes are the most important disease vectors. Mosquito borne diseases like malaria, dengue, equine encephalitis, West Nile, Mayaro or Chikungunya are zoonoses with increasing incidence in last years in tropical and temperate countries. Vertebrates can also transmit serious zoonoses, highlighting the role of some carnivorous animals in rabies dissemination or the spread of rodent borne diseases in several rural and urban areas. Moreover, the significance of other food borne zoonoses such as taeniasis, trichinellosis or toxoplasmosis may not be underestimated. According to WHO, FAO and OIE guidelines an emerging zoonotic disease can be defined as a zoonosis that is newly recognized or newly evolved, or that has occurred previously but shows an increase of incidence or expansion in geographical, host or vector range. There are many factors that can provoke or accelerate the emergence of zoonoses, such as environmental changes, habitat modifications, variations of human and animal demography, pathogens and vectors anomalous mobilization related with human practices and globalization, deterioration of the strategies of vector control or changes in pathogen genetics. To reduce public health risks from zoonoses is absolutely necessary to acquire an integrative perspective that includes the study of the complexity of interactions among humans, animals and environment in order to be able to fight against these issues of primary interest for human health. In any case, although zoonoses represent significant public health threats, many of them still remain as neglected diseases and consequently are not prioritized by some health international organisms.

Surrealism and Architecture Jul 21 2019 Twenty-one essays examining the relationship of surrealist thought to architectural theory and practice.

UNDER THE KNIFE Mar 09 2021 A fan-favorite novel by internationally bestselling author Tess Gerritsen For attorney David Ransom, it begins as an open-and-shut case: malpractice. Then Dr. Kate Chesne storms into his office, daring him to seek out the truth—that she's being framed. When another patient turns up dead, David starts to believe her. Somewhere in the Honolulu hospital, a killer walks freely. And now David finds himself asking the same questions Kate is desperate to have answered. Who is next—and why?

Landscape as Infrastructure Oct 24 2019 As ecology becomes the new engineering, the projection of landscape as infrastructure—the contemporary alignment of the disciplines of landscape architecture, civil engineering, and urban planning—has become pressing. Predominant challenges facing urban regions and territories today—including shifting climates, material flows, and population mobilities, are addressed and strategized here. Responding to the under-performance of master planning and over-exertion of technological systems at the end of twentieth century, this book argues for the strategic design of "infrastructural ecologies," describing a synthetic landscape of living, biophysical systems that operate as urban infrastructures to shape and direct the future of urban economies and cultures into the 21st century. Pierre Bélanger is Associate Professor of Landscape Architecture and Co-Director of the Master in Design Studies Program at Harvard University's Graduate School of Design. As part of the Department of Landscape Architecture and the Advanced Studies Program, Bélanger teaches and coordinates graduate courses on the convergence of ecology, infrastructure and urbanism in the interrelated fields of design, planning and engineering. Dr. Bélanger is author of the 35th edition of the Pamphlet Architecture Series from Princeton Architectural Press, GOING LIVE: from States to Systems (pa35.net), co-editor with Jennifer Sigler of the 39th issue of Harvard Design Magazine, Wet Matter, and co-author of the forthcoming volume ECOLOGIES OF POWER: Mapping Military Geographies & Logistical Landscapes of the U.S. Department of Defense. As a landscape architect and urbanist, he is the recipient of the 2008 Canada Prix de Rome in Architecture and the Curator for the Canada Pavilion at Canadian Exhibition, "EXTRACTION," at the 2016 Venice Architecture Biennale (extraction.ca).

The Mephisto Club Dec 06 2020 On Christmas Eve, Boston Medical Examiner Maura Isles is summoned to the scene of a brutal killing and teams up with Detective Jane Rizzoli to investigate the victim's ties to Joyce O'Donnell, a cantankerous psychologist, and to a sinister cabal called the Mephisto Club, a group devoted to a study of evil in all its malevolent forms. Reprint.

Afro-Latin American Studies Sep 03 2020 Examines the full range of humanities and social science scholarship on people of African descent in Latin America. Burning Bright Feb 20 2022 "LOTS OF CHARACTERS GET COMPARED TO MY OWN JACK REACHER, BUT PETRIE'S PETER ASH IS THE REAL DEAL."—Lee Child "An Entertainment Weekly Must List Pick In the new novel featuring war veteran Peter Ash, "an action hero of the likes of Jack Reacher or Jason Bourne" (Lincoln Journal-Star), Ash has a woman's life in his hands—and her mystery is stranger than he could ever imagine. War veteran Peter Ash sought peace and quiet among the towering redwoods of northern California, but the trip isn't quite the balm he'd hoped for. The dense forest and close fog cause his claustrophobia to buzz and spark, and then he stumbles upon a grizzly, long thought to have vanished from this part of the country. In a fight of man against bear, Peter doesn't favor his odds, so he makes a strategic retreat up a nearby sapling. There, he finds something strange: a climbing rope, affixed to a distant branch above. It leads to another, and another, up through the giant tree canopy, and ending at a hanging platform. On the platform is a woman on the run. From below them come the sounds of men and gunshots. Just days ago, investigative journalist June Cassidy escaped a kidnapping by the men who are still on her trail. She suspects they're after something belonging to her mother, a prominent software designer who recently died in an accident. June needs time to figure out what's going on, and help from someone with Peter's particular set of skills. Only one step ahead of their pursuers, Peter and June must race to unravel this peculiar mystery. What they find leads them to an eccentric recluse, a shadowy pseudo-military organization, and an extraordinary tool that may change the modern world forever.

Freaks: A Rizzoli & Isles Short Story Jan 19 2022 In this Rizzoli & Isles short story from New York Times bestselling author Tess Gerritsen, a bizarre death comes with a supernatural twist. Homicide cop Jane Rizzoli and medical examiner Maura Isles have seen their fair share of mortal crimes, but the death of Kimberly Rayner may qualify as inhuman in more ways than one. When corpse of the emaciated seventeen-year-old girl is discovered next to an empty coffin in an abandoned church, mysterious bruises around the throat suggest foul play. Caught fleeing the scene is the victim's closest friend, Lucas Henry, an equally skeletal, pale teenager who claims he's guilty only of having a taste for blood—a craving he shared with Kimberly. But the victim's distraught father doesn't believe in vampires, only vengeance. And now, another life may be at risk unless Rizzoli and Isles can uncover the astonishing truth. Includes an excerpt from Tess Gerritsen's Rizzoli & Isles novel The Silent Girl
