Pacific Feb 19 2022 If you center a globe on Kiritimati (Christmas Island), all you see around it is a vast expanse of ocean. Islands of various sizes float in view while glimpses of continents encroach on the fringes, but this is a view dominated by water. The immense stretch of the Pacific Ocean is inhabited by a diverse array of peoples and cultures bound by a common thread: their relationship with the sea. In this volume, the rich history of the Pacific is explored through specific objects, each one beautifully illustrated, from the earliest human engagement with the Pacific through to the modern day. Entries cover mapping, trade, whaling, flora and fauna, and the myriad vessels used to traverse the ocean. This visually stunning publication highlights the importance of an ocean that covers very nearly a third of the surface of the globe, and which has dramatically shaped the world and people around it. A new look at this fascinating ocean, considering the diversity of culture beyond the familiar viewpoint of colonial history. ? Fully illustrated with maps, paintings, artefacts and photographs, with some items from the Library collection reproduced for the very first time. ? Beautifully packaged in landscape format and cloth quarter-binding

The Modern Girl's Guide to Motherhood Jan 06 2021 From the author of the bestselling *The Modern Girl's Guide to Life* comes a must-have book for the young mom, including best-kept secrets, practical advice, and multiple solutions for problems from birth to age four Just when you thought you could cook (hey, one meal counts), clean (if the queen was coming), and seduce a man (well, long enough to get married), life throws you a curveball that makes all of your previous ineptitudes in life pale in comparison. With the appearance of one little extra line on a pregnancy test, you're thrown into a world of covering up leaks on shirts and taking a pacifier away from a two-year-old who has the grip of a pit bull. In this funny, smart, and honest book, Jane Buckingham cuts through the clutter to give you simple information and practical advice for navigating the different stages of motherhood. From how to get your child to sleep and how to wean, to how to get him off the pacifier and how to stop his tantrums, this book will help moms feel in the know and in control! Some of Buckingham's favorite tips: If your baby has a hard time feeding because of a stuffy nose, turn on the shower to steam up the bathroom and feed her there. Put your children's paints in an empty egg carton -- it's the perfect size, and there's no mess to clean up when you're done. Use an old raincoat with the arms cut off as a smock. You should buy a new car seat, rather than borrowing a friend's old car seat, as there are constant safety upgrades. Also, be sure you are the person registered to that car seat (send in that registration card!) so that you'll be notified in case of a recall. Keep the three-day rule in mind: Almost any bad habit can be broken in three days. Granted, they may be tough, torturous days, but you can do it! *The Modern Girl's Guide to Motherhood* helps modern moms do it all with love, style, and flair!

like!

The Mineral Book Nov 23 2019 The Mineral Book is a part of the best-selling Wonders of Creation Series! It has been developed for multi-level teaching, with special color-coding on three skill levels. This educational resource is filled with full-color pictures and illustrations, and can be used in the classroom, for independent study, or homeschool settings. Created to make mineralogy accessible to beginners, students, and hobbyists as well as: Learn about the order and beauty of minerals shaped by the Creator Find out the properties of minerals, where they can be found, and how they are used, along with fun facts Includes a 24-inch, full-color pull-out poster! Minerals are a gift of God's grace. Every day we touch them, seeing the diamond in an engagement ring or a copper chain with a cross on it. Minerals are touched on in video games like Minecraft® and Mineral Valley™, making them more a part of our daily experience. Salt, one vital mineral, helps maintain the fluid in our blood cells and is used to transmit information in our nerves and muscles. Also, Jesus told his followers that we are the salt of the earth (Matthew 5:13), something thus needed for health and flavor. Here is a God-honoring book that reveals the first mention of minerals in the Bible, symbolic usages, their current values in culture and society, and their mention in heaven.

The Baby Sleep Solution Jan 18 2022 Suzy Giordano, affectionately known as "The Baby Coach," shares her highly effective sleep-training method in this step-by-step guide to let both baby and parent enjoy long, peaceful nights. Full of common sense and specific tips, the Baby Coach's plan offers time- and family-tested techniques to help any baby up to the age of 18 months who has trouble sleeping through the night. Originally developed for newborn multiples, this sleep-training method worked so well with twins and triplets that families with singletons and older babies began asking Suzy to share her recipe for success, resulting in: regular feeding times; 12 hours' sleep at night; three hours' sleep during the day; peace of mind for parent and baby; and less strain on parents - and their marriage. This edition includes a new chapter on implementing the program with babies up to 18 months.

The Must-Have Mom Manual Apr 28 2020

Whether it is bottle- or breast-feeding, cribs or co-sleeping, getting back to the office or staying home with the kids, best friends Sara Ellington and Stephanie Triplett, the team behind the popular book and radio show *The Mommy Chronicles*, rarely choose the same option. Lucky for us, in *The Must-Have Mom Manual*, they discuss the pros and cons of every aspect of child raising, from pacifiers to potty training, bedtimes to birthday parties, day care to Disney World. Their philosophy is simple: There is no one right way to be a mom. Sara and Stephanie just want to make every mother's life easier. So, with a healthy dose of humor, they share their parenting triumphs and disasters, marital challenges, public meltdowns, and all the knowledge they've gained as authors and radio show hosts, with hundreds of tips for moms everywhere.

- 10 things not to feel guilty about—because every mother feels bad about something
- Answers for new moms about leaving the house with baby for the first time, postpartum depression, accepting help, car seats, and dining out with baby
- Sticky parenting decisions—including the consensus on little white lies, family nudity, "correcting" homework, and leaving your child in the car (just

- for a second)
- Managing your household and how to conquer the clutter with special strategies for organizing every room in your home
- Products for moms, the best mom-gear, cleaning products—including technology, gadgets, stores, and places to take the kids
- Marriage 911, sleep or sex?, how to keep the home fires burning—plus four people who can sabotage your sex life

Parenting, Inc. Oct 15 2021 A leading social critic goes inside the billion-dollar baby business to expose the marketing and the myths, helping parents determine what's worth their money—and what's a waste Parenting coaches, ergonomic strollers, music classes, sleep consultants, luxury diaper creams, a never-ending rotation of DVDs that will make a baby smarter, socially adept, and bilingual before age three. Time-strapped, anxious parents hoping to provide the best for their baby are the perfect mark for the "parenting" industry. In *Parenting, Inc.*, Pamela Paul investigates the whirligig of marketing hype, peer pressure, and easy consumerism that spins parents into purchasing overpriced products and raising overprotected, overstimulated, and over-provided-for children. Paul shows how the parenting industry has persuaded parents that they cannot trust their children's health, happiness, and success to themselves. She offers a behind-the-scenes look at the baby business so that any parent can decode the claims—and discover shockingly unuseful products and surprisingly effective services. And she interviews educators, psychologists, and parents to reveal why the best thing for a baby is to break the cycle of self-recrimination and indulgence that feeds into overspending. Paul's book leads the way for every parent who wants to escape the spiral of fear, guilt, competition, and consumption that characterizes modern American parenthood.
