Double Take May 30 2020 FBI agents Dillon Savich and Lacey Sherlock are joined by one

of their own and a Virginia sheriff in an extraordinary case that immerses them in the world of psychic visions, mind benders, and communications with the dead. It's been more than six months since her husband's brutal death, and Julia Ransom is just beginning to breathe again. She loved her husband, renowned psychic August Ransom, but the media frenzy that followed his murder sapped what little strength she had left. Now, after dinner with friends, strolling along San Francisco's Pier 39, she realizes that she's happy. Standing at the railing, she savors the sounds around her-tourists, seals on a barge-and for a moment enjoys the sheer normalcy of it all. And then it comes to an end. Out of nowhere she's approached by a respectable-looking man who distracts her with conversation before violently attacking her and throwing her the railing. If it hadn't been for Special Agent Cheney Stone, out to stretch his legs between courses at a local restaurant, Julia would have vanished into the bay's murky depths. Not only does he save her from a watery grave, but he senses a connection between her assault and her husband's death, and sets out to serve as her protector while reopening August Ransom's murder investigation. Meanwhile, in Maestro, Virginia, Sheriff Dixon Noble-last seen in Point Blank-still mourns his wife, Christie, who vanished three years earlier. His life, too, is just getting back to normal when he learns of a San Francisco woman named Charlotte Pallack, whose shocking resemblance to Christie sends Dix across the country. Though he knows in his heart that she can't possibly be his wife, Dix is compelled to see her with his own eyes. Once in San Francisco, Dix and Cheney's paths inevitably cross. With the help of agents Dillon Savich and Lacey Sherlock, whose San Francisco connections prove essential in unlocking the mystery behind Charlotte Pallack's identity as well as the forces behind Julia Ransom's attempted murder, Sheriff Noble and Agent Stone push deep into a complex world of psychics and poseurs. As the stakes and the body count rise, Savich, Sherlock, Dix, and Cheney fight for answers-and their lives.

Blowfish Jun 18 2019 Mukund and Chaddha spend their days comfortably ensconced in their cushy jobs, wallowing in regrets that make for good conversation. Mukund, in a fit of bravado, resigns to pursue his "calling"; the only hitch is that he doesn't know what it is yet! Chaddha is fired and seeks solace in shooting pigeons at point-blank range. Mukund's life spirals out of control when Colonel Harpal Singh, the housing society secretary, finds in him a reflection of his estranged son. Harpal places Mukund under "house arrest", puts him on trial in a kangaroo court and coerces him to fight a ludicrous duel. Constantly under

threat, and running out of time and money, Mukund is about to go back to being a man with bad dandruff, a small car and even smaller dreams, when he meets Suman, a girl who, like him, is trying to figure out what life is all about. Blowfish is a fast, funny and irreverent take on the overhyped pursuit of passion in a country where flashy cars and posh bungalows remain the only lasting symbols of success and happiness.

Bridging Between Information Retrieval and Databases Jun 30 2020 The research domains of information retrieval and databases have traditionally adopted different approaches to information management. However, in recent years, there has been an increasing cross-fertilization among the two fields and now many research challenges are transversal to them. With this in mind, a winter school was organized in Bressanone, Italy, in February 2013, within the context of the EU-funded research project PROMISE (Participative Research Laboratory for Multimedia and Multilingual Information Systems Evaluation). PROMISE aimed at advancing the experimental evaluation of complex multimedia and multilingual information systems in order to support individuals, commercial entities and communities, who design, develop, employ and improve such complex systems. The overall goal of PROMISE was to deliver a unified environment collecting data, knowledge, tools and methodologies and to help the user community involved in experimental evaluation. This book constitutes the outcome of the PROMISE Winter School 2013 and contains 9 invited lectures from the research domains of information retrieval and databases plus short papers of the best student poster awards. A large variety of topics are covered, including databases, information retrieval, experimental evaluation, metrics and statistics, semantic search, keyword search in databases, semi-

structured search, evaluation both in information retrieval and databases, crowdsourcing and social media.
