UGC NET Women's Studies Sep 30 2022 This is the second edition of the book. The book has been written especially for UGC NET Exam, which is conducted twice a year i.e. in June & December. Not a single book is available on Women's Studies especially for UGC NET Exam. It is my endeavour to fill this gap. The first section of this book deals with important facts related to the subject. It contains all the information in tabular form for quick revision. Thereafter, 31 Sets of Question Papers (Paper II & Paper III) asked in previous UGC NET Exam from 2004 to 2015 has been solved with detailed explanations. If

any NET aspirant studies these Question-Answers carefully then I am sure that success is not far for such aspirants, as often many questions from previous year exam are repeated or asked in a modified form each year. Those students who are appearing in State Level Eligibility Test or Ph. D Entrance Exam may also find this book equally useful for them.

Constructing the Welfare State in the British Press Aug 30 2022 Analysing political discourse in the British press during a time of crisis and austerity, this book examines how the concept of the welfare state has been constructed between 2008 and 2015. At a time when the financial crisis and government policies have put the welfare state under increased pressure, a corpus from four British newspapers from across the political spectrum - the Guardian, Daily Mirror, Daily Mail, and Daily Telegraph - is brought together to investigate the political debate on its evaluation and the ambiguity about its exact definition.

Combining two theoretical approaches, Malgorzata Paprota outlines the figurative models and scenarios relevant to this element of the political system. The discourse-historical approach to discourse analysis is used to establish what the welfare state is, tracing the boundaries of the concept and which elements of political reality are explicitly associated with it. Conceptual metaphor theory is then used to explore the figurative conceptualisations of the welfare state. Together, this book shows the discursive construction, and shifting boundaries and metaphors, of the welfare state by the British press and its use in current political debates.

Issues in Financial Accounting Nov 01 2022 *Issues in Financial Accounting* addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards.
