The Book of Answers Nov 03 2022 An updated, repackaged edition of the bestselling divination tool and party favorite - ask a yes or no question, open the book, find your answer - with more than a million copies in print. Should you ask your boss for a raise? Call that cutie you met at a party? Sell your Google stock? Tell your best friend her boyfriend's cheating? The answer to these questions (and hundreds of others) is in this fun and weirdly wise little book that's impossible to put down. It's simple to use: just hold it closed in your hands and concentrate on your question for a few seconds. While visualizing or speaking your question, place one palm down on the book's front and stroke the edge of the pages back to front. When you sense the time is right, open to the page your fingers landed on and there is your answer! Fun, satisfying, and a lot less time-consuming than asking everyone you know for advice. Over 1 million copies in print!

The Vaccine Answer Book Feb 11 2021 From the cover of Time magazine to high-profile celebrity crusades, childhood vaccines are one of the most intensely debated topics affecting parents today. The Vaccine Answer Book cuts through the controversy, giving parents impartial answers to more than 200 of the top questions about vaccines. Written by an experienced MD who is also a father of four, this pocket-size reference guide includes essential basic information about vaccines and the public health rationale behind them, a complete explanation of the recommended vaccine schedule for children, and detailed information on each specific vaccine. It also includes full disclosure of all the possible vaccine side effects, situations when you shouldn't vaccinate, and an unbiased explanation of recent controversies involving vaccines, including the purported link between vaccines and autism. The Vaccine Answer Book is a parent's must-have guide to fully understanding this hot-button issue and making confident, informed decisions. Readers will find trusted answers to questions such as: How effective are vaccines? What is thimerosal and why was it removed from childhood vaccines? Is there a link between MMR and autism? What should I do if I decide that I don't want to vaccinate my child or want to choose an alternative vaccine schedule? Is it better to get

vaccinations in a group or to spread them out?
