Terror and Triumph Oct 23 2019 Given the unique history of African Americans and their diverse religious flowering in Black Christianity, the Nation of Islam, voodoo, and others, what is the heart and soul of African American religious life? As a leader in both Black religious studies and theology, Anthony Pinn has probed the dynamism and variety of African American religious expressions. In this work, based on the Edward Cadbury Lectures at the University of Birmingham, England, he searches out the basic structure of Black religion, tracing the Black religious spirit in its many historical manifestations. Pinn finds in the terrors of enslavement of Black bodies and subsequent oppressions the primal experience to which the Black religious impulse provides a perennial and cumulative response. Oppressions entailed the denial of personhood and creation of an object: the negro. Slave auctions, punishments, and, later, lynchings created an existential dread but also evoked a quest, a search, for complex subjectivity or authentic personhood that still fuels Black religion today. In this 20th anniversary edition of Pinn's groundbreaking work, the author offers a new reflection on the argument in retrospect and invites a panel of five contemporary scholars to examine what it means for current and future scholarship. Contributors include Keri Day, Sylvester Johnson, Anthony G. Reddie, Calvin Warren,

and Carol Wayne White.

The Cornel West Reader Nov 04 2020 Cornel West is one of the nation's premier public intellectuals and one of the great prophetic voices of our era. Whether he is writing a scholarly book or an article for Newsweek, whether he is speaking of Emerson, Gramsci, or Marvin Gaye, his work radiates a passion that reflects the rich traditions he draws on and weaves together—Baptist preaching, American transcendentalism, jazz, radical politics. This anthology reveals the dazzling range of West's work, from his explorations of "Prophetic Pragmatism" to his philosophizing on hip-hop. The *Cornel West Reader* traces the development of West's extraordinary career as academic, public intellectual, and activist. In his essays, articles, books, and interviews, West emerges as America's social conscience, urging attention to complicated issues of racial and economic justice, sexuality and gender, history and politics. This collection represents the best work of an always compelling, often controversial, and absolutely essential philosopher of the modern American experience.

Black Faith and Public Talk Apr 21 2022 When Cone wrote *Black Theology and Black Power*, he signaled to the world that the American black faith tradition would no longer recognize the confines of the church walls as the extent of its purview in society. Cone liberated the Gospel of Christ from its institutionalized forms, unhinging it from oppressive and racist power structures in American society and releasing it to do its work in the public sphere. *Black Faith and Public Talk* continues Cone's theme of power in the public realm and examines the economic, political, cultural, gender, and theological implications of black faith and black theology.

Sisters in the Wilderness Mar 28 2020 This landmark work first published 20 years ago helped establish the field of African-American womanist theology. It is widely regarded as a classic text in the field. Drawing on the biblical figure of Hagar mother of Ishmael, cast into the desert by Abraham and Sarah, but protected by God Williams finds a prototype for the struggle of African-American women. African slave, homeless exile, surrogate mother, Hagar's story provides an image of survival and defiance appropriate to black women today. Exploring the themes implicit in Hagar's story poverty and slavery, ethnicity and sexual exploitation, exile and encounter with God Williams traces parallels in the history of African-American women from slavery to the present day. A new womanist theology emerges from this shared experience, from the interplay of oppressions on account of race, sex and class. *Sisters in the Wilderness* offers a telling critique of theologies that promote "liberation" but ignore women of color. This is a book that defined a new theological project and charted a path that others continue to explore.

Black Theology and Black Power Sep 26 2022 First published in 1969, "Black Theology & Black Power" provided the first systematic presentation of black theology. Relating the militant struggle for liberation with the gospel message of salvation, James Cone laid the foundation for an original interpretation of Christianity that retains its urgency and challenge today.

James H. Cone and Black Liberation Theology Dec 17 2021 Since Cone's *Black Theology and Black Power* was first published in 1969, he has been recognized as one of the most creative contemporary black theologians. Roundly criticized by white theologians, the book and Cone's subsequent writings nevertheless gave voice and viability to the developing black theological movement of the late 1960s. Despite his influence on the African American religious community, scholars have written very little about his works, in part because of the sharp rhetoric and polemics of his first two books. Discussed here are some of his major writings, from his first essay, *Christianity and Black Power* (1968), through the major work *Martin & Malcolm & America* (1991). The systematic development of his themes (social and economic analysis, black sexism, relations between black, feminist, and so-called third-world theologies, etc.) is fully explained.

Political Ideologies and the Democratic Ideal Dec 05 2020 *Political Ideologies and the Democratic Ideal*, 9/e, thoroughly analyzes and compares political ideologies to help readers understand these ideologies as acutely as a political scientist does. Used alone or with its companion *Ideals and Ideologies: A Reader*, 9/e, this best-selling title promotes open-mindedness and develops critical thinking skills.

Said I Wasn't Gonna Tell Nobody May 22 2022 This autobiographical work is truly the capstone to the career of the man widely regarded as the "Father of

Black Theology." Dr. Cone, a distinguished professor at Union Theological Seminary, died April 27, 2018. During the 1960s and 1970s he argued for racial justice and an interpretation of the Christian Gospel that elevated the voices of the oppressed.

The Cross and the Lynching Tree Aug 25 2022 A landmark in the conversation about race and religion in America. "They put him to death by hanging him on a tree." Acts 10:39 The cross and the lynching tree are the two most emotionally charged symbols in the history of the African American community. In this powerful new work, theologian James H. Cone explores these symbols and their interconnection in the history and souls of black folk. Both the cross and the lynching tree represent the worst in human beings and at the same time a thirst for life that refuses to let the worst determine our final meaning. While the lynching tree symbolized white power and "black death," the cross symbolizes divine power and "black life" God overcoming the power of sin and death. For African Americans, the image of Jesus, hung on a tree to die, powerfully grounded their faith that God was with them, even in the suffering of the lynching era. In a work that spans social history, theology, and cultural studies, Cone explores the message of the spirituals and the power of the blues; the passion and of Emmet Till and the engaged vision of Martin Luther King, Jr.; he invokes the spirits of Billie Holiday and Langston Hughes, Fannie Lou Hamer and Ida B. Wells, and the witness of black artists, writers, preachers, and fighters for justice. And he remembers the victims, especially the 5,000 who perished during the lynching period. Through their witness he contemplates the greatest challenge of any Christian theology to explain how life can be made meaningful in the face of death and injustice.

Conceptions of God, Freedom, and Ethics in African American and Jewish Theology Aug 01 2020 This book is a consideration of major contemporary Black and Jewish understanding of God, examining how profound faith in a just God is sustained, and even strengthened, in the face of particularly horrific and long-standing evil and suffering in a community.

Introducing James H. Cone Oct 15 2021 It is rarely the case that an intellectual movement can point to an individual figure as its founder. Yet James Cone has been heralded as the acknowledged genius and the creator of black theology. In nearly 50 years of published work, James Cone redefined the intent of academic theology and defined a whole new movement in intellectual thought. In *Introducing James H. Cone* Anthony Reddie offers us an accessible and engaging assessment of Cone's legacy, from his first book *Black Theology and Black Power* in 1969 through to his final intellectual autobiography *I Said I wasn't Gonna Tell Nobody* in 2018. It is an indispensable field guide to perhaps the greatest black theologian of recent times.

Speaking the Truth: Ecumenism, Liberation and Black Theology Jan 26 2020 *Speaking the Truth* addresses topics of Black Theology and its relationship to other Christian theologies (especially liberation theology) and secular ideologies, the role of the Black churches in American history, Christian faith, and political praxis, and the unique features of Black worship in this collection of essays first published in 1986. James H. Cone argues that there can be no comprehension of the gospel apart from God's solidarity with the liberation struggles of the poor, because the freedom of the victims on earth is a sign of God's intention to redeem the whole creation. "As ambassadors of Jesus Christ," he writes, "Christians have no choice but to join the movement of liberation on the side of the poor, fighting against the structures of injustice."

I Said I Wasn't Gonna Tell Nobody Oct 03 2020 Widely regarded as the "Father of Black Theology," this autobiographical work by James Cone is truly the capstone to his career.

The Spirituals and the Blues Mar 20 2022 Cone explores two classic aspects of African-American culture--the spirituals and the blues. He tells the captivating story of how slaves and the children of slaves used this music to affirm their essential humanity in the face of oppression. The blues are shown to be a "this-worldly" expression of cultural and political rebellion. The spirituals tell about the "attempt to carve out a significant existence in a very trying situation".

Black Prophetic Fire Jan 06 2021 An unflinching look at nineteenth- and twentieth-century African American leaders and their visionary legacies. In an accessible, conversational format, Cornel West, with distinguished scholar Christa Buschendorf, provides a fresh perspective on six revolutionary African

American leaders: Frederick Douglass, W. E. B. Du Bois, Martin Luther King Jr., Ella Baker, Malcolm X, and Ida B. Wells. In dialogue with Buschendorf, West examines the impact of these men and women on their own eras and across the decades. He not only rediscovers the integrity and commitment within these passionate advocates but also their fault lines. West, in these illuminating conversations with the German scholar and thinker Christa Buschendorf, describes Douglass as a complex man who is both “the towering Black freedom fighter of the nineteenth century” and a product of his time who lost sight of the fight for civil rights after the emancipation. He calls Du Bois “undeniably the most important Black intellectual of the twentieth century” and explores the more radical aspects of his thinking in order to understand his uncompromising critique of the United States, which has been omitted from the American collective memory. West argues that our selective memory has sanitized and even “Santaclausified” Martin Luther King Jr., rendering him less radical, and has marginalized Ella Baker, who embodies the grassroots organizing of the civil rights movement. The controversial Malcolm X, who is often seen as a proponent of reverse racism, hatred, and violence, has been demonized in a false opposition with King, while the appeal of his rhetoric and sincerity to students has been sidelined. Ida B. Wells, West argues, shares Malcolm X’s radical spirit and fearless speech, but has “often become the victim of public amnesia.” By providing new insights that humanize all of these well-known figures, in the engrossing dialogue with Buschendorf, and in his insightful introduction and powerful closing essay, Cornel West takes an important step in rekindling the Black prophetic fire so essential in the age of Obama.

For My People Jan 18 2022 Looks at the history of Black theology, discusses its relationship to white and liberation theology, and identifies new directions for Black churches to take in the eighties

Jesus' Death in New Testament Thought: Two-Volume Complete Edition Sep 21 2019 Jesus’ Death in New Testament Thought is unlike anything written on the subject to date. It represents a radical break with the traditional models or “theories” of atonement based on ideas such as penal substitution, participation in Christ, and the Christus Victor motif, claiming that all of these ideas as commonly understood are foreign to New Testament thought. On the basis of his analysis of second-temple Jewish thought, Brondos demonstrates that, for Jews in antiquity, what atoned for sins and led people to be declared righteous in God’s sight was not sacrifice, suffering, or death in themselves, but the renewed commitment to living in accordance with God’s will which they manifested by means of their sacrificial offerings and at times their willingness to endure suffering and death out of faithfulness to that will. According to the thought of Jesus’ first followers, in accordance with a divine plan conceived of before the ages, in Jesus God had sent his Son in order to establish around him a community of people fully committed to practicing the love, justice, solidarity, and righteousness associated with God’s will for all. Jesus’ dedication to this task led to confrontation and conflict with the powers and authorities of his day, who sought to silence him by having him put to death. Because he stood firm and remained faithful to that task rather than backing down from it, he was crucified on a Roman cross. Paradoxically, however, in this way he laid the basis for the existence of the community God had desired from the start, stamping it forever as one to which no one could truly belong without assuming the same firm commitment to Jesus and everything for which he had lived and died. Those who form part of this community, living out of faith under Jesus as their risen Lord, come to practice God’s will as redefined through Jesus and on that basis are forgiven and accepted as righteous by God. Thus, by giving up his life out of love for others in faithfulness to the task his Father had given him, Jesus has attained the redemption, reconciliation, cleansing, and justification of those who now live under his lordship as members of the worldwide community of believers from all nations that God has established through him and his death, in fulfillment of the promises that God had made of old to his people Israel. In Volume 1, Brondos looks to the relevant texts from antiquity to trace the background and development of these ideas. His argument will leave the reader with no doubt that Jesus’ first followers understood the salvific significance of his death or blood in the manner just outlined, and therefore that the traditional interpretations of his death that have prevailed from patristic times to the present do not reflect faithfully their thought as we find it in the New Testament. In Volume 2, Brondos examines the formulaic allusions to Jesus’ death that we find scattered throughout the New Testament and other early Christian writings so as to demonstrate that these are precisely the ideas that lie behind those allusions. At the same time, through his analysis of the writings of Melito of Sardis and Irenaeus of Lyons, he provides clear evidence that, by the late second century, ideas that are foreign to those texts began to be read back into them, with the result that the original understandings of Jesus’ death that had developed among his first

followers came to be replaced by other understandings that run contrary to their thought. In his Conclusion, Brondos argues that only by rejecting the traditional models of atonement and returning to the New Testament teaching on this central doctrine can the Christian church respond effectively to the crisis it faces today and bring about the restoration of the type of communities envisioned by Jesus and his first followers.

A Black Theology of Liberation Aug 13 2021 "The classic text in black theology, with a new foreword by Peter J. Paris and a new afterword by Kelly Brown Douglas"--

A Black Theology of Liberation Oct 27 2022 With the publication of his two early works, *Black Theology & Black Power* (1969) and *A Black Theology of Liberation* (1970), James Cone emerged as one of the most creative and provocative theological voices in North America. These books, which offered a searing indictment of white theology and society, introduced a radical reappraisal of the Christian message for our time. Combining the visions of Malcolm X and Martin Luther King, Jr., Cone radically reappraised Christianity from the perspective of the oppressed black community in North America. Forty years later, his work retains its original power, enhanced now by reflections on the evolution of his own thinking and of black theology and on the needs of the present moment.

Race Dec 25 2019 In *Race: A Theological Account*, J. Kameron Carter meditates on the multiple legacies implicated in the production of a racialized world and that still mark how we function in it and think about ourselves. These are the legacies of colonialism and empire, political theories of the state, anthropological theories of the human, and philosophy itself, from the eighteenth-century Enlightenment to the present. Carter's claim is that Christian theology, and the signal transformation it (along with Christianity) underwent, is at the heart of these legacies. In that transformation, Christian anti-Judaism biologized itself so as to racialize itself. As a result, and with the legitimation of Christian theology, Christianity became the cultural property of the West, the religious ground of white supremacy and global hegemony. In short, Christianity became white. The racial imagination is thus a particular kind of theological problem. Not content only to describe this problem, Carter constructs a way forward for Christian theology. Through engagement with figures as disparate in outlook and as varied across the historical landscape as Immanuel Kant, Frederick Douglass, Jarena Lee, Michel Foucault, Cornel West, Albert Raboteau, Charles Long, James Cone, Irenaeus of Lyons, Gregory of Nyssa, and Maximus the Confessor, Carter reorients the whole of Christian theology, bringing it into the twenty-first century. Neither a simple reiteration of Black Theology nor another expression of the new theological orthodoxies, this groundbreaking book will be a major contribution to contemporary Christian theology, with ramifications in other areas of the humanities.

God of the Oppressed Jun 23 2022 In his reflections on God, Jesus, suffering, and liberation, James H. Cone relates the gospel message to the experience of the black community. But a wider theme of the book is the role that social and historical context plays in framing the questions we address to God as well as the mode of the answers provided.

Black Faith and Public Talk Sep 02 2020 When Cone wrote *Black Theology and Black Power*, he signaled to the world that the American black faith tradition would no longer recognize the confines of the church walls as the extent of its purview in society. Beyond Ontological Blackness Nov 23 2019 In this study, Victor Anderson traces instances of "ontological blackness" in African American theological, religious and cultural thought, arguing that African American critical thought has been trapped in a racial rhetoric that it did not create and which cannot serve it well. Drawing together 18th- and 19th-century accommodationism and its assimilationist heirs with the movements of Black Power and Afrocentrism, Anderson shows that all exhibit a similar structure of racial identity. He suggests that it is time to move beyond the confines of "the cult of black heroic genius" to what Bell Hooks has termed "postmodern blackness": a racial discourse that leaves room to negotiate African American identities along lines of class, gender, sexuality, and age as well as race.

Philosophy of Religion and the African American Experience Jun 18 2019 African American theologians tend not to find philosophy as a meaningful tool to advance their theological positions. *African Americans and Christianity* offers an engaging and thorough bridge between African American theology and philosophy of religion.

The Cross and the Lynching Tree May 30 2020 Examines the symbols of the cross and the lynching tree in African Americans daily life, spiritual life, and history.

Black Theology and Ideology Sep 14 2021 In this work Harry H. Singleton, III, uniquely combines the theological methods of Juan Luis Segundo and James H. Cone. Segundo's method of deideologization is appropriated to argue that relevant theological reflection must depart from the exposing of religio-political ideologies that justify human oppression in the name of God and their need to be effectively countered by the creation of new theological presuppositions rooted in liberation. Singleton then contextualizes Segundo's method by offering Cone's theological perspective as the best example of such an approach in America insofar as it is able to discern the link between religio-political ideologies and black oppression.

American Religion: Religion in the new nation Apr 28 2020 This set offers a wide range of primary source material spanning several centuries of religious experience in the United States. Black Theology in Britain Jul 20 2019 Black theology as a discipline emerged in 1960s America, growing out of the experiences of Black people of the African Diaspora as they sought to re-interpret the central ideas of Christianity in light of struggle and oppression. However, a form of Black theology has been present in Britain since the time of slavery. 'Black Theology in Britain' offers the first comprehensive survey of Black theology, tracing its development in Britain from the eighteenth century to today. The essays cover a wide range of topics: Black Liberation; drama as a medium for Black theology; the perspective of Black women; Black theology in the pulpit and pastoral care; and the work of Robert Beckford and Anthony Reddie. 'Black Theology in Britain' is a key resource for students of British history, cultural studies, Black theology, and religious studies.
