Drug Court May 03 2020 *Drug Court: Constructing the Moral Identity of Drug Offenders* offers a richly detailed field research investigation of how drug court professionals work to help drug offenders become drug free and law abiding. The book explores the less public and revealing world of drug court professionals as they judge and manage drug offenders. Drug courts are the latest approach in America and in other countries for handling problem drug users. More than 1,200 drug courts exist throughout the United States and its territories. These courts developed out of the shifting emphasis on punishment and treatment of problem drug users. Based on more than five years of field research in three drug courts in a southeastern state in the U.S., in two of which the senior author was the drug court administrator, *Drug Court* explores how a team of drug court professionals transform drug offenders into drug court clients. Judges, administrators, drug counselors, lawyers, and others compose the drug court team. These drug court professionals face the

challenge of deciding whether drug offenders are primarily criminals who have little, if any, desire to kick their habit or whether they are drug abusers who will work to abstain from using drugs. Some of the questions answered in this book are, Are the drug offenders appropriate clients for drug courts? Are the drug court clients participating adequately within the drug court program? Have the drug court clients performed successfully in the program to graduate? Through their evaluation, interpretation, monitoring, sanctioning, and more, drug court professionals judge the moral worth of drug offenders as they treat and manage the offenders through drug court. Drug Court will be of interest to a diverse audience including the areas of criminal justice, law/legal studies, drug treatment/counseling, and sociology.

Summary of Frederick Libby's Horses Don't Fly May 27 2022 Please note: This is a companion version & not the original book. Sample Book Insights: #1 I had an awful tragedy when I was young. My mother died of quick consumption, and I was left with four siblings. Father turned down all the aunts and uncles who wanted to take me away, saying we would fight it out together. #2 I had two horses, a dark bay named Shoefly, and a sorrel named Kid. I loved riding them, and I spent my vacation time watching my brother Bud break horses to ride. I was growing too slowly, and time was passing slower. #3 The King boys were great fun to be with. They could have left me holding the bag, but they told their mother, who was able to handle their father. The horse was never the same after being sprayed with the liquid. #4 My uncle Sam was a favorite uncle of mine. He was always so happy, and he enjoyed life. He would take a plug of chewing tobacco out of his pocket and

bite off a big chew. This didn't smell bad like whiskey, but was pretty and brown like the crust of Sally's pies. I wanted to try it.
