The Enemy Within Feb 07 2021 America's largest cities are in flames. Its majestic landmarks are in ruins. Oceans and boundaries offer no protection. It is the first sophisticated, intelligently planned, and utterly ruthless terrorist campaign waged on U.S. soil. As national leaders, armies, and artificial intelligence strive to win the unconventional war, two men--once friends, now adversaries to the death--race to a decisive confrontation.

This Grand Experiment Sep 21 2019 In the volatility of the Civil War, the federal government opened its payrolls to women.

Although the press and government officials considered the federal employment of women to be an innocuous wartime aberration, women immediately saw the new development for what it was: a rare chance to obtain well-paid, intellectually challenging work in a country and time that typically excluded females from such channels of labor. Thousands of female applicants from across the country flooded Washington with applications. Here, Jessica Ziparo traces the struggles and triumphs of early female federal employees, who were caught between traditional, cultural notions of female dependence and an evolving movement of female autonomy in a new economic reality. In doing so, Ziparo demonstrates how these women challenged societal gender norms, carved out a place for independent women in the streets of Washington, and sometimes clashed with the female suffrage movement. Examining the advent of female federal employment, Ziparo finds a lost opportunity for wage equality in the federal government and shows how despite discrimination, prejudice, and harassment, women persisted, succeeding in making their presence in the federal workforce permanent. United States Code, 2006, V. 4, Title 8, Aliens and Nationality, to Title 10, Armed Forces, Sections 101-1805 Jan 26 2020

Enemy Within May 10 2021 The White House, infiltrated. The president, running for his life. A traitorous general, intent on burning the world to the ground. When everything falls apart, who do you trust? President Jack Spiers fled Washington DC on the heels of a devastating attack on CIA headquarters, masterminded by one of America's own, former General Porter Madigan. While the world believes Jack was killed in the bombing, he embarks on a wild infiltration mission, smuggling himself into occupied Russia to rescue the love of his life: former Secret Service Agent and First Gentleman Ethan Reichenbach. Reunited, Jack, Ethan, and deposed Russian president Sergey Puchkov, along with President Elizabeth Wall--the only person left in Washington DC who Jack trusts--must work together. They piece together a desperate plan, hunting Madigan to the ends of the earth and the bitter frigidity of the Arctic, where Madigan's world-shattering doomsday plan comes together. Outnumbered, outmaneuvered, and outgunned, Jack, Ethan, Sergey, and the rest of the team struggle to put a stop to Madigan and his army. In the desolate extremes of the Arctic, their resolve, their strength,

and even their love is tested, pushed to the absolute limits as choices must be made: choices that pit the fate of the world against the love in their hearts, and the loves of their life. As the world crumbles around them, Jack and Ethan find themselves waging a war on two fronts--against an enemy they can see, and another, hiding within their ranks. Who can be trusted when the enemy is within you?

Unable Aug 13 2021 Since the election of President Donald Trump, the Twenty-Fifth Amendment to the Constitution--covering presidential incapacity--has been a frequent topic of public discussion. Meanwhile, Section 4 has become a mainstay in television dramas, which usually resent it inaccurately. The country needs this complicated but essential topic explained. *Unable: The Law, Politics, and Limits of Section 4 of the Twenty-Fifth Amendment* is designed to educate and inform the public about Section 4 in an evenhanded and accessible way. This book is not about President Trump; it offers no opinions on his fitness for office. By the end of the book, though, it will be clear how Section 4 applies to him, as well as to any other president. The Enemy Within Apr 21 2022 America's bravest, brashiest voice is back?as ferocious and cutting as ever. "Where has six decades of radical, mad-dog liberalism brought us?" Savage asks in his electrifying new book. "I'll tell you where: America is teetering on the cliffs of insanity." Written with the fire, the conviction, and the clear vision of a modern-day prophet, Savage returns with a vengeance in this lightning rod of a book, speaking for all Americans who are fed up and ticked off at the corrosive influence of today's "psycho liberals"?the Democrats, as he calls them. "They're speeding down the pathway of good intentions. Their mantra: Celebrate perversity, embrace ultra-tolerance, pay rape-a-nations (so-called reparations), support affirmative racism, and provide government subsidies for every illegal who sneaks across the border. In their haste to push failed socialist ideals, the libs have placed us on a crash course of total destruction." Even while the heated controversy of his New York Times bestseller, *The Savage Nation*, still simmers, Michael Savage raises his weapons of matchless wit and moxie again, this time aiming his sights on the liberal assault on our most cherished institutions and taking a stand for our schools, our faith, our police and armed forces, and, most important, our families. It isn't always pretty. You might even at times become uncomfortable. But as you read on, you'll find these pages always contain the Savage truth. That is how to fight the *Enemy Within*. Filled with riotous rage and blistering humor, this book inspires as it enflames, encouraging Americans to reclaim our country, our government, our national integrity.

Elusive Security Nov 16 2021 This clear and concise text offers a comprehensive comparison of national, international, and human security concepts and policies. Laura Neack argues that security remains elusive because of a centuries-old ethic that insists that states are the primary and most important international actors, can rely ultimately only on themselves for protection, and must keep all

options on the table for national security. The author compellingly demonstrates how a state-first security ethic ultimately fails to secure states, the international community and—most important—human beings. In this state-first world, we only can choose between degrees of insecurity; true security remains elusive.

Finding the Enemy Within May 22 2022 In the past decade, Pakistan has witnessed incidents such as the public lynching of a student on a university campus, a Christian couple being torched alive, attacks on entire neighbourhoods by angry mobs and the assassination of a provincial governor by his own security guard over allegations of blasphemy. *Finding the Enemy Within* unpacks the meanings and motivations behind accusations of blasphemy and subsequent violence in Pakistan. This is the first ethnographic study of its kind analysing the perspectives of a range of different actors including accusers, religious scholars and lawyers involved in blasphemy-related incidents in Pakistan. Bringing together anthropological perspectives on religion, violence and law, this book reworks prevalent analytical dichotomies of reason/emotion, culture/religion, traditional/Western, state/nonstate and legal/extralegal to extend our understanding of the upsurge of blasphemy-related violence in Pakistan. Through the case study of blasphemy accusations in Pakistan, this book addresses broader questions of difference, individual and collective identities, social and symbolic boundaries, and conflict and violence in modern nation-states.

1956, The World in Revolt Nov 23 2019 Popular uprisings in Poland and Hungary shake Moscow's hold on its eastern European empire. Across the American South, and in the Union of South Africa, black people risk their livelihoods, and their lives, in the struggle to dismantle institutionalised white supremacy and secure first-class citizenship. France and Britain, already battling anti-colonial insurgencies in Algeria and Cyprus, now face the humiliation of Suez. Meanwhile, in Cuba, Fidel Castro and his band of rebels take to the Sierra Maestra to plot the overthrow of a dictator... 1956 was one of the most remarkable years of the twentieth century. All across the globe, ordinary people spoke out, filled the streets and city squares, and took up arms in an attempt to win their freedom. In response to these unprecedented challenges to their authority, those in power fought back, in a desperate bid to shore up their position. It was an epic contest, and one which made 1956 - like 1789 and 1848 - a year that changed our world.

Marxism in Britain Jun 11 2021 Since the Second World War, Marxism in Britain has declined almost to the point of oblivion. The Communist Party of Great Britain had more than 50,000 members in the early 1940s, but less than 5,000 when it disbanded in 1991. Dissenting and Trotskyist organisations experienced a very similar decline, although there has been a late flowering of Marxism in Scotland. Based on the Communist Party archives at Manchester, this text examines the decline over the last sixty years. Dealing with the impact of the Cold War upon British Marxism, the book looks at how international events such as the Soviet invasions of Hungary and Czechoslovakia affected the Communist Party of Great Britain. The issues of Marxism and Britain's withdrawal from the Empire

are also addressed, as are the Marxist influence upon British industrial relations and its involvement in the feminist movement. Focusing on the current debate in British Marxist history over the influence of Moscow and Stalinism on the Communist Party, Keith Laybourn explores the ways in which this issue, which divides historians, undermined Marxism in Britain.

The Zinoviev Letter Sep 02 2020 This is the story of one of the most enduring conspiracy theories in British politics, an intrigue that still has resonance nearly a century after it was written: the Zinoviev Letter of 1924. Almost certainly a forgery, no original has ever been traced, and even if genuine it was probably Soviet fake news. Despite this, the Letter still haunts British politics nearly a century after it was written, the subject of major Whitehall investigations in the 1960s and 1990s, and cropping up in the media as recently as during the Referendum campaign and the 2017 general election. The Letter, encouraging the British proletariat to greater revolutionary fervour, was apparently sent by Grigori Zinoviev, head of the Bolshevik propaganda organization, to the British Communist Party in September 1924. Sent to London through British Secret Intelligence Service channels, it arrived during the general election campaign and was leaked to the press. The Letter's publication by the Daily Mail on 25 October 1924 just before the General Election humiliated the first ever British Labour government, headed by Ramsay MacDonald, when its political opponents used it to create a 'Red Scare' in the media. Labour blamed the Letter for its defeat, insisting there had been a right-wing Establishment conspiracy, and many in the Labour Party have never forgotten it. The Zinoviev Letter has long been a symbol of political dirty tricks and what we would now call fake news. But it is also a gripping historical detective story of spies and secrets, fraud and forgery, international subversion and the nascent global conflict between communism and capitalism.

Enemy Within Jul 24 2022 Acclaimed New York Times bestselling author Robert K. Tanenbaum ratchets up the suspense with an authentic and morally complex mystery set deep inside the New York City police department. When a black man is shot multiple times in the back on the streets of New York by an NYPD golden boy, chaos erupts throughout the city. And in an election year -- a year of secret handshakes and politically motivated favors -- no one feels the pressure more than the men and women who vow to protect and to serve. For Butch Karp, chief assistant district attorney for New York County, bullet holes aren't the only holes in this volatile case, nor in a second shocking puzzle... A slow-witted young man faces the death penalty for murdering a Jewish diamond merchant. Karp is quickly learning that politics mean a lot more than justice when it becomes apparent certain higher-ups would rather

whitewash the truth than lose the Jewish vote. Add a serial killer who is murdering the homeless to Karp's daily grind, and it's clear he is surrounded by high-profile time bombs that are promising to blow the city to its core. To make matters worse, Karp's wife, Marlene Ciampi, has become independently wealthy thanks to the Internet stock boom and has decided to enjoy her newly acquired fortune through manic shopping sprees and free-flowing alcohol. Plus, his daughter, Lucy, is skipping school to feed the homeless not far from where the slasher stalks his prey. Desperate to stop the violence before it touches his family, Karp must wade through a system of corruption and conspiracy that threatens to silence his pursuit of the truth...forever.

The Democratic Unionist Party Mar 08 2021 The Democratic Unionist Party (DUP) has moved from a religion-dominated protest party to a pragmatic party of government in Northern Ireland, the most popular in the region, with more votes, Assembly seats, and MPs than any of its rivals. This book draws upon the first-ever survey of the party's members, funded by the Leverhulme Trust, along with over one hundred interviews, to analyse their views on the transformation undergone by the DUP. The book analyses what categories of individual make up the DUP, ranging from religious fundamentalists or moderates, detailing the religious composition of the party. How Free Presbyterian or Orange is the modern DUP and how is its membership changing? What identity do those members hold? The book then assesses the attitudes of members to the contemporary power-sharing arrangements in a divided society. How

comfortable is the DUP to sharing political spoils with the republican 'enemy'? How supportive are members of the Executive and Assembly in Northern Ireland and what progress do they think has been made? The book also dissects the modern fears of DUP members, ranging from the dilution of religious fervour to continuing fears over security and opposition to policing reforms. Attitudes to unity with other Unionist groups are explored, as are the prospects of capturing support from Catholic supporters of Northern Ireland's place in the United Kingdom. Drawing upon unprecedented access to a party traditionally suspicious of outsiders, this book offers a unique insight into how an opposition party grounded in religious principles has accommodated change and broadened its appeal, whilst retaining most of its traditional hardcore membership.

The Enemy Within Dec 17 2021 'Hard headed, well informed and intellectually coherent ... it turns conventional wisdom on its head. It deserves to promote a public debate on this subject which has been needed for more than 20 years' Peter Osborne Britain has often found groups within its borders whom it does not trust, whom it feels have a belief, culture, practice or agenda which runs contrary to those of the majority. From Catholics to Jews, miners to trade unionists, Marxists to liberals and even homosexuals, all have at times been viewed, described and treated as 'the enemy within'. Muslims are the latest in a long line of 'others' to be given this label. How did this state of affairs come to pass? What are the lessons and challenges for the future - and how will the tale of Muslim Britain develop? Sayeeda Warsi draws on her own unique position in British life, as the child of Pakistani immigrants, an outsider, who became an insider, the UK's first Muslim Cabinet minister, to explore questions of cultural difference, terrorism, surveillance, social justice, religious freedom, integration and the meaning of 'British values'. Uncompromising and outspoken, filled with arguments, real-life experience, necessary truths and possible ways forward for Muslims, politicians and the rest of us, this is a timely and urgent book. Give Up Something Bad for Lent Jun 18 2019 During Lent each year, Christians give up something as an act of sacrifice and spiritual discipline. Often it is something like chocolate, knowing that after Easter Sunday they can once again enjoy what they have given up. James Moore challenges readers to take it further—to give up something spiritually that they would be better off not doing. He invites all to seek God's help to focus on eliminating one habit or attitude that is destructive. Imagine giving up envy, jealousy, self-pity, apathy, procrastination, gossip, resentment, or negative thinking, how much better life would be. The forty days of Lent are ideal to use this study and prepare to give up something bad while preparing to fully embrace the "Good News" of Easter. Study includes seven sessions, one for each Sunday in Lent and Easter Sunday. Each session features a Scripture reference, a personal reading, questions for personal reflection or group study, and closing prayer.

The Threat and Allure of the Magical May 30 2020 This collection of essays is borne out of the 17th Annual Interdisciplinary German Studies Conference at the University of California, Berkeley. The essays gathered here cover a broad range of topics moving from intersections between the occult and the political, to the entanglement of conceptions of the magical, modernity, media, and aesthetics. The first two essays primarily rely on historical analysis and present a wealth of original research. One chronicles the construction of the witch in Early Modern print media, while the other unfolds the complex relationship of an infighting Third Reich with a multifaceted occult deemed at once fascinating and menacing. The third essay in the collection combines critical, literary, and feminist theories in order to address the magical as an aspect of the fairy tale – a theme in the works of Jelinek and Adorno – and as a challenge to Enlightenment reason. The next two essays, influenced heavily by narratology and semiotics, present close readings of 19th century novellas that question the nexus of mediality and perception, magic and narrative structure. The first of these two essays deals with the liminality of the marionette as it is caught between its mechanical and marvelous qualities in E. T. A. Hoffman's *Rat Krespel* (Councilor Krespel), while the latter addresses the collapse of reality mirrored by the magical collapse of metaphor in Theodor Storm's *Pole Poppenspähler* (Paul the Puppeteer). The last essay rounds out the compilation with a focus on new media. With close analyses of the films in Lang's Mabuse trilogy, this essay charts their relation to the enchantment and disenchantment of the medium of film.

The Enemy Within Jun 23 2022 Margaret Thatcher branded the leaders of the 1984-85 miners strike "the enemy within." In this classic account, Seumas Milne reveals the astonishing lengths to which her government and its intelligence machine were prepared to go to destroy the power of Britain's miners union. In this 30th anniversary edition new material brings the story up to date with further revelations about the secret war against organized labour and political dissent, and the devastating price paid for the Thatcher administrations onslaught by communities across Britain.
