The User Manual of Me Feb 21 2022 We all have heard of and used "user manuals." A user manual is a document to assist a user in using and working with a piece of equipment or software product. They are developed to guide the user so that they will have less problems and be more successful in using the product. What if every person came with a user manual? A guide that explains who they are and how to work with them? A few words that would provide insight into who they are and what you can do to connect with them better. The opportunity for creating greater understanding and opening productive, and transformational, conversations then becomes more possible. Better conversations lead to better relationships. Better relationships allow an environment of innovation and productivity. Trustful relationships in teams are at the foundation of psychologically safe work places. The latest research shows a direct correlation between trust and performance. The User Manual of Me is an online tool and companion workbook's purpose is to assist you in a personal brand statement to help others understand who you are, what you value, and how you like to work. It shows you how to construct a personal leadership brand statement according to the latest neuroscience research that has been proven to connect with people better. A well-crafted leadership brand statement's purpose is to evoke positive emotions, thoughts, and images in people. To help you connect with others on a personal level and open the channels of communication about what is important and valuable in working better together.
