*Leading with Love* Mar 06 2021 As business becomes more automated, power more concentrated, and the forces of competition and consumption seem to dominate our lives, we are in danger of losing what it is to be human. Work for many can be a soulless activity, creating feelings of disempowerment, alienation, and depression. Learning to lead with love is a counterforce to the instrumentalisation of the person. This book presents original research based on leaders who were nominated by their people for leading with love. It shows how they learned to lead with love for the benefit of themselves, their organisations, and their people. It shows that leading with love is something that is practised by leaders who are more emotionally, morally, and spiritually mature. Leading with love is a sign of psychological maturity, whilst leading with fear is a sign of hindered emotional and spiritual development. Based on this research, this book presents a simple framework to help leaders who wish to develop their psychological maturity and apply practices which will enable them to successfully lead with love.

*Damaged Goods* Jul 30 2020 'Superb' *Evening Standard* 'From the glitzy parties to the threatening phone calls, the larger-than-life characters to the speedy downfall, this real-life tale of hubris has all the elements of a Greek tragedy' *City AM* 'Entertaining stuff, pacily written. *Guardian 'Some stupid f\*cking book' Sir Philip Green* In this jaw-dropping expose, Oliver Shah uncovers the truth behind one of Britain's biggest business scandals, following Sir Philip Green's journey to the big time, the wild excesses of his heyday and his dramatic demise. Sir Philip Green was once hailed one of Britain's best businessmen. As chairman of Arcadia Group, home to brands such as Topshop, Dorothy Perkins and Miss Selfridge, Green had prime ministers and supermodels on speed dial. But the retail magnate's reputation came crashing down when Shah, a Sunday Times journalist, uncovered the methods Green used to amass his gigantic offshore fortune, and the desperation that drove his doomed BHS deal. In 2015, Green sold British Home Stores for £1 to Retail Acquisitions, owned by Dominic Chappell, a charlatan who siphoned off BHS's remaining millions before filing for administration. By the time it went under in April 2016, BHS had debts of £1.3bn, including a pension deficit of £571m. Its collapse left 11,000 employees without jobs and 20,000 pension fund members facing the loss of their benefits, prompting the government to launch an inquiry into Green's sale of the company. While one of Britain's oldest department stores boarded up its shop fronts, former employees and shoppers protested in the streets and MPs rallied in parliament, demanding Green be stripped of his knighthood. The furore over the sale subsided in 2017 when Green agreed a £363m deal with the Pensions Regulator, but with revelations surrounding Topshop's pension deficit now surfacing, could tragedy strike again? Oliver Shah is the award-winning Business Editor of the Sunday Times and one of the most respected national commentators on business and the high street. He was named business journalist of the year at both the Press Awards and London Press Club Awards in 2017 for his investigation into Sir Philip Green. Shah studied English at Cambridge University and journalism at City University before joining City AM in 2009 and the Sunday Times in 2010. Aged 34, Shah lives in east London.

None of the Above Apr 07 2021 Are all the parties the same? Will my vote really make any difference? Why is politics so hard to understand? If you've ever thought any of these things, you're not alone. What with broken promises, complicated jargon and a lack of simple and clear information, is it any wonder that voter turnout is plummeting? It's not that you don't care about the way the country is run - it's that you don't think you can change it. Well, you can. And this book aims to show you how, by setting out basic politics and answering questions we've all asked, like: Why do politicians lie? What do UKIP stand for? And what's going to happen to the NHS? You have a decision to make in the countdown to the May 2015 General Election. You have something politicians want. Your vote. An ambassador for #SwingtheVote and the presenter of Free Speech, Rick Edwards has written a pithy and succinct book explaining the power of your vote. A refreshing counterpoint to Russell Brand's sentiments on voting in his latest book, Revolution, it will make you think about politics in a completely new way.

The Constitution of Social Democracy Jan 16 2022 This book is based upon the papers written by a group of leading international scholars on the 'constitution of social democracy', delivered at a conference to celebrate Professor Keith Ewing's scholarly legacy in labour law, constitutional law, human rights and the law of democracy. The chapters explore the development of social democracy and democratic socialism in theory and political practice from a variety of comparative, legal, and disciplinary perspectives. These developments have occurred against a backdrop of fragmenting 'traditional' political parties, declining collective

bargaining, concerns about 'juristocracy' and the displacement of popular sovereignty, the emergence of populist political movements, austerity, and fundamental questions about the future of the European project. With this context in mind, this collection considers whether legal norms can and should contribute to the constitution of social democracy. It could not be more timely in addressing these fundamental constitutional questions at the intersection of law, democracy, and political economy.

*Transforming Sport* May 28 2020 Sport sociology has a responsibility to engage critically with the accepted wisdom of those who govern and promote sport. This challenging collection of international research is a clear call for enacting the transformation of sport. The contributing authors argue that it is not enough to merely advocate for change. Rather, they insist that scholars need to take an active political stance when conducting research with the explicit purpose of attempting to transform the practices, structures, and the ways in which knowledge is produced about sport. By exposing and challenging the power relations which perpetuate discrimination and inequality within sport, it becomes possible to catalyse wider societal changes. Drawing on a diversity of topics including sport for development and peace, transnational feminism, disability sport, refugees and football activism, FIFA, the Olympics, sports journalism and digital sports media, this book makes a case for sport sociology as an agent of positive change in the hierarchies and institutional structures of contemporary sport. *Transforming Sport: Knowledges, Practices, Structures* provides valuable insights for all students and scholars interested in the sociology of sport and its transformative potential.

*Labour Exploitation and Work-Based Harm* Jul 10 2021 EPUB and EPDF available Open Access under CC-BY-NC-ND licence. Labour exploitation is a highly topical though complex issue that has international resonance for those concerned with social justice and social welfare, but there is a lack of research available about it. This book, part of the *Studies in Social Harm* series, is the first to look at labour exploitation from a social harm perspective, arguing that, as a global social problem, it should be located within the broader study of work-based harm. Written by an expert in policy orientated research, he critiques existing approaches to the study of workplace exploitation, abuse and forced labour. Mapping out a new sub-discipline, this innovative book aims to shift power from employers to workers to reduce levels of labour exploitation and work-based harm. It is relevant to academics from many fields as well as legislators, policy makers, politicians, employers, union officials, activists and consumers.

*Core and Contingent Work in the European Union* Apr 19 2022 Labour and social security law studies have addressed the topic of the decline of the standard employment relationship mainly from the point of view of the growing number of atypical relationships. Only a limited number of studies have examined the issue from the perspective of the differentiation between core and contingent work. Such an examination is necessary as the increase in contingent work leads to complicated legal questions which vary between European states depending on the type of contingent arrangements that have become most prevalent. This book analyses, using a comparative approach, these different types of contingency from a national and EU perspective touching on the work relationship from a labour as well as a social security point of view. The aim of the book is to identify and analyse those questions adopting an innovative approach and to put forward proposals for safeguarding social cohesion within undertakings and European society.

*High Street Heroes* Jan 24 2020 *WHEN BUSINESSMAN* John Timpson started his retailing career in 1960, there were no supermarkets, no out-of-town shopping centres and not even a hint of internet shopping. The British high street was full of made-to-measure tailors and traditional grocers. Among the household names were Mac Fisheries, Dewhurst, John Collier and Timothy Whites & Taylors. In this enjoyable new book, Timpson shows how successive generations of forward-thinking shopkeepers and inspirational entrepreneurs have led the major retailers through a period of rapid change - people such as Ken Morrison, Ralph Halpern, Terence Conran and Anita Roddick, without

whom our high streets would have looked very different. This unique survey - from a man who knows a few things about success in retail - paints a compelling, personal and vivid picture of how shops have changed over the last 100 years and reveals who Timpson thinks has had the biggest influence on the shape of shopping in the 'retail revolution' that we have witnessed since the 1970s.

Zero Hours and On-call Work in Anglo-Saxon Countries Oct 21 2019 This book focuses on zero hours and on-call work as an extreme form of casual and precarious employment. It includes country studies of the USA, Canada, Australia, the UK, New Zealand and Ireland, where there has been increasing concern about the prevalence of such work, and working time uncertainty, as well as varying levels of public policy debate on regulation. The book incorporates a comparative review of zero hours work based on the findings of the country studies. This pays particular attention to state regulatory responses to zero hours work, and incorporates the sociological concepts of accumulation and legitimation functions of the state. Exploring the regulation of zero hours work beyond individual countries, the book includes an analysis of external regulation of zero hours work at the supranational level, namely the European Union and ILO. Further, it assesses the implications of zero hours for workers in new sectors of economic activity, particularly the impact of the platform or 'gig' economy on the fundamental nature of the employment relationship. It also considers the societal implications of zero hours work and the ethical responsibilities of employers and governments towards workers as citizens.

The Signs Were There Jul 22 2022 When companies suffer a dramatic even catastrophic drop in their share price, it is the investors who lose their shirts and employees their jobs. But often, a company's published accounts offer clues to impending disaster, providing you know where to look. Through the forensic examination of more than 20 recent stock market disasters, Tim Steer reveals how companies hide or disguise worrying facts about the robustness of their business. In his lively style, he looks at the themes that underlie the ways companies hide the truth and he stresses that in an assessment of a company's accounts, investors should always bear in mind that the only fact is cash; everything else - profit, assets, etc - is a matter of opinion. Full of invaluable lessons for investors, the book concludes with some trenchant observations on what is wrong in the worlds of investment, audit and financial regulation, and what changes should be introduced.

Faces of Precarity Jan 04 2021 The word 'precarity' is widely used when discussing work, employment or social classes. However, there is no consensus on the precise meaning of the term or how it should best be used to explore social changes. This international and interdisciplinary book offers a distinctive and critical perspective approach to an important topic.

HC 1130 - Legacy Report Jul 18 2019 In this report the Committee has set out key elements of its work over the 2010-15 Parliament. The Committee believes that it is crucial that select committees follow up their work and do not simply see the publication of a report as the end of the process of scrutiny. Scrutiny should not end with the Dissolution of Parliament. The Scottish Government was clear that the 2014 referendum on independence would

be a once generation event, but that does not mean that the relationship between Scotland and the rest of the United Kingdom will remain unchanged. The recommendations of the Smith Agreement will be implemented during the course of the next Parliament. The major package of legislation, and the revised fiscal framework that will accompany it, will require careful and detailed scrutiny, as will any proposals to go further that the Smith Commission envisaged.

*Miseducation* Nov 02 2020 In this book Diane Reay, herself working-class-turned-Cambridge-professor, presents a 21st-century view of education and the working classes. The book reveals how we have ended up with an educational system that still educates the different social classes in fundamentally different ways and, vitally, what we can do to achieve a fairer system. Book jacket.

Founders without Limits Mar 26 2020 The first comprehensive collation of the international history of, and evidence on, dual-class stock, and their relevance to UK policy.

*Reputation in Business* Apr 26 2020 A compelling mix of reputation management, crisis leadership and the role of politics in business, this book provides unique practical steps that leaders can take to protect their reputations and those of the organisations they head in an ever more open social media-led world. Although leaders increasingly recognise the vital intangible asset that reputation represents, too many do not really understand what reputation is and the steps that should be taken to build it and their corporate value. Given the range of factors depending on the organisation, each aspect of its complex reputational story needs to be unpicked if a reputation is to be built, maintained and protected. This step-by-step-guide offers advice on how to develop the strategies needed to do this, provides clear lessons throughout from a range of experts - and distinctively, looks beyond the corporate sector to charities, governments, NGOs and the public sector. Boards, trustees, non-executive directors, senior management, and leaders of all types of organisations need to consider the steps that should be taken to build, maintain and defend their reputation, and that means knowing what their reputation is and the audiences that matter most to them. This book is the roadmap.

*The Harms of Work* May 20 2022 As the percentage of people working in the service economy continues to rise, there is a need to examine workplace harm within low-paid, insecure, flexible and short-term forms of 'affective labour'. This is the first book to discuss harm through an ultra-realist lens and examines the connection between individuals, their working conditions and management culture. Using data from a long-term ethnographic study of the service economy, it investigates the reorganisation of labour markets and the shift from security to flexibility, a central function of consumer capitalism. It highlights working conditions and organisational practices which employees experience as normal and routine but within which multiple harms occur. Challenging current thinking within sociology and policy analysis, it reconnects ideology and political economy with workplace studies and uses examples of legal and illegal activity to demonstrate the

multiple harms within the service economy.

Where's the 'Human' in Human Resource Management? Nov 14 2021 We all have to work to pay the bills - but what influence do we really have over our pay and working conditions? The emergence of the global economy, digital technologies, mass migration, gig work and zero hours contracts have thrust this question to the forefront of HRM. So how can we keep the 'human' in human resource management faced by these pressures? This book adopts a critical approach to today's major workplace challenges. It turns traditional HRM on its head by placing workers' perspectives towards the workplace alongside those of managers to create an HRM textbook for the 21st century. Written by two experienced and research-active authors, the book:

- locates control of labour costs and productivity at the heart of HRM policy and practice;
- covers key issues that are overlooked in many textbooks, including conflict and resistance, the 'new' unitarism, migration and the challenges of Artificial Intelligence;
- adopts a critical approach that will appeal more to students who don't wish to become traditional managers;
- includes current examples and case studies from the international world of work and business that will bring the subject to life. This is a comprehensive one-stop resource for students and lecturers alike.
